De Minimis Amount for Recoupments on Federal Offshore Mineral Leases

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of amount.

SUMMARY: This notice establishes the amount below which a royalty payor is not required to follow the statutory recoupment procedures. The Minerals Management Service (MMS) issued regulations governing recoupment of overpayments on Federal offshore mineral leases. Those regulations provide that MMS will publish a notice establishing de minimis amounts where it is not cost effective to process the recoupment request.

FOR FURTHER INFORMATION CONTACT: Randall Drake, Financial Compliance Branch, Compliance Verification Division, Minerals Management Service, Royalty Management Program, P.O. Box 25165, MS-3670, Denver, Colorado, 80225-0165, telephone number (303) 231-3139, fax number (303) 231-3372.

SUPPLEMENTARY INFORMATION: The Royalty Management Program of the Minerals Management Service (MMS) established regulations at 30 CFR Part 230 (59 FR 38365, July 28, 1994,

effective August 29, 1994) implementing Section 10 of the Outer Continental Shelf Lands Act, 43 U.S.C. § 1339.

Section 10 requires that requests for refunds or credits of excess payments on Federal offshore leases be authorized only if (1) a request for refund or credit is filed within 2 years after the making of the payment, and (2) 30 days expire after both Houses of Congress are notified of the refund request, 43 U.S.C. § 1339.

In the regulations, MMS identified certain transactions not subject to Section 10. Under one of those exceptions, the regulations at 30 CFR § 230.461(h) permit payors to file credit adjustments for de minimis amounts without filing requests for refunds with MMS. Those rules provide that MMS periodically will publish in the Federal Register what the de minimis threshold is. By Federal Register notice (60 FR 20504) dated April 26, 1995, the threshold was established at \$250. Based on the cost experience for fiscal year 1995, MMS is increasing the de minimis threshold to \$2,500. From recent experience, this would reduce the number of refund requests MMS processes from 1900 to 900 annually. It also should be recognized that the \$2,500 de minimis threshold is applicable only to OCS leases which produce large volumes of oil and gas relative to onshore leases.

Under these procedures, payors may make credit adjustments for \$2,500 or less for each Outer Continental Shelf (OCS) lease and report month without filing a request with MMS. A credit adjustment for a lease within a unit may exceed \$2,500 of credits during 1 report month, provided the net credit adjustment for that month considering all positive and negative adjustments for leases in the unit is less than \$2,500. For example, if leases A and B are part of a unit, a payor may submit a credit adjustment of \$10,000 for lease A and a payment of \$8,000 for lease B within the same report month. Since the two leases within the unit net to a credit of \$2,000, the payor is within the de minimis amount. As provided by the regulations, the overpayment recoupments must be made within 2 years of the date MMS received the payment.

Dated: February 15, 1996.

Associate Director for Royalty Management.
