BILLING CODE 3410-11-M

Conformity Determination for the Proposed Carlota Copper Project, Pinal and Gila Counties, AZ

AGENCY: Forest Service, USDA.

ACTION: Notice of availability.

SUMMARY: In accordance with the federal Conformity Rule (November 15, 1993, 40 CFR 51.850-51.860), the United States Department of Agriculture, Forest Service—Tonto National Forest (Tonto NF) has reviewed the air quality analysis conducted for the proposed Carlota Copper Project to be located within the Hayden/Miami, Arizona, planning area that has been designated a nonattainment area for particulate matter less than 10 microns in aerodynamic diameter (PM₁₀) and sulfur dioxide (SO₂). The Tonto NF's review has been conducted consistent with the requirements of 40 CFR Part 93, Subpart B: "Determining Conformity of General Federal Activities to State or Federal Implementation Plans (SIP)", issued on November 30, 1993.

The Tonto NF has determined that total annual emissions of SO₂ from the proposed project are less than the *de minimis* mission threshold (40 CFR Part 93) that triggers the requirement to conduct a conformity determination.

Annual PM₁₀ emissions have been determined to exceed the PM₁₀ *de minimis* threshold and the Tonto NF has prepared a conformity determination for this pollutant. As per the requirement in 40 CFR 93.153(h)(1), this Federal Register notice lists the proposed activities that are presumed to conform and the basis for the presumptions. A comprehensive presentation of the bases for the conformity presumptions are included in the report, "Conformity Determination: Carlota Copper Project," USDA, Forest Service—Tonto National Forest, February, 1996.
