

implementation of the model deployment. (Note that actual data collection will be the responsibility of the independent evaluation contractor);

(c) Organizational and management approach for conducting their part of evaluation activities;

(d) Demonstrated understanding of the role of evaluation in the model deployment initiative;

(e) Respondent's proposed methods for interfacing the system design process with the system evaluation process.

6. National ITS Systems Architecture: (10 Percent)

Applications will be evaluated based on a demonstrated understanding of the on-going National ITS Systems Architecture development effort, and a commitment to showcasing the architecture, especially focussing on how an integrated transportation management system will be designed with appropriate communications and interfaces consistent with the national architecture.

Financial Plan

Applications will be evaluated based on the following criteria:

(a) A sound financial plan to support timely deployment of the project and continued, long-term operations and maintenance of the system. Applications which provide a strong element of innovative financing, and/or a strong commitment by the private sector to share in funding project development and operations, will receive additional points in the scoring.

(b) A realistic identification of needed improvements or extensions to the communications, surveillance, data collection capabilities, and/or transportation management functions needed to support a fully integrated transportation management system as required by the model deployment program. Applications should identify already designated or available Federal-aid, State, local and/or private funding to provide these needed improvements or extensions.

(c) A clear identification of the proposed funding for the project, and a commitment that no more than 50% of the total project cost will be supported by Federal ITS funds.
