

OMB Circular A-21 for institutions of higher education; 45 CFR part 74, appendix E for hospitals; and OMB Circular A-122 for nonprofit organizations.

Reporting and Other Requirements

A successful applicant under this notice will submit semi-annual activity summary reports in accordance with provisions of the general regulations which apply under 45 CFR part 74, subpart 74.51, "Monitoring and Reporting Program Performance," with the exception of State and local governments to which 45 CFR part 92, Subpart C reporting requirements apply. Also, grantees must be prepared to collaborate with other grantees on the design and implementation of project evaluations which may include multi-site evaluation studies.

Public Health System Reporting Requirements

This program is subject to the Public Health System Reporting Requirements which have been approved by the Office of Management and Budget under No. 0937-0195. Under these requirements, any community-based, non-governmental applicant must prepare and submit a Public Health System Impact Statement (PHSIS). The PHSIS is intended to keep State and local health officials apprised of proposed health services grant applications submitted from within their jurisdictions.

Community-based, non-governmental applicants are required to submit, no later than the Federal due date for receipt of the application, the following information to the administrator of the State and local AIDS programs in the area(s) to be impacted by the proposal: (a) a copy of the face page of the application (SF424); and, (b) a summary of the project (PHSIS), not to exceed one page, which provides: (1) a description of the population to be served; (2) a summary of the services to be provided; and, (3) a description of the coordination planned with the appropriate State or local health agencies. Copies of the letters forwarding the PHSIS to these authorities must be contained in the application materials submitted to this program.

Certification Regarding Environmental Tobacco Smoke

The Public Health Service strongly encourages all grant and contract recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in

certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care or early childhood development services are provided to children.

Executive Order 12372

The Special Projects of National Significance Grant Program has been determined to be a program subject to the provisions of Executive Order 12372, as implemented by 45 CFR part 100. Executive Order 12372 allows States the option of setting up a system for reviewing applications from within their States for assistance under certain Federal programs.

The application packages to be made available under this notice will contain a listing of States which have chosen to set up a review system and will provide a Single Point of Contact (SPOC) in the State for the review. Applicants (other than federally recognized Indian tribes) should contact their SPOCs as early as possible to alert them to the prospective applications and receive any necessary instructions on the State process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected state. The due date for State process recommendations is 60 days after the appropriate deadline dates. The Health Resources and Services Administration does not guarantee that it will accommodate or explain its responses to State process recommendations received after the due date. (See "Intergovernmental Review of Federal Programs," Executive Order 12372, and 45 CFR part 100, for a description of the review process and requirements.)
