**DEPARTMENT OF COMMERCE****Bureau of the Census****1997 Economic Census Covering Professional, Management, and Support Services; Health and Social Assistance; Educational Services; Arts, Entertainment, and Recreation; and Other Services Sectors**

**ACTION:** Proposed Agency Information Collection Activity; Comment Request.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before April 29, 1996.

**ADDRESSES:** Direct all written comments to Linda Engelmeier, Acting Departmental Forms Clearance Officer, Department of Commerce, Room 5327, 14th and Constitution Avenue, NW., Washington, DC 20230.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Jack Moody, Bureau of the Census, Room 2665, Building 3, Washington, DC 20233 on (301) 457-2689.

**SUPPLEMENTARY INFORMATION:****I. Abstract**

The Census Bureau is the preeminent collector and provider of timely, relevant, and quality data about the people and economy of the United States. Economic data are the Census Bureau's primary program commitment during nondecennial census years. The economic census, conducted under

authority of Title 13 U.S.C., is the primary source of facts about the structure and functioning of the Nation's economy and features unique industry and geographic detail. Economic census statistics serve as part of the framework for the national accounts and provide essential information for government, business and the general public. The 1997 Economic Census will cover virtually every sector of the U.S. economy including approximately 594,000 professional, management, and support services establishments; 469,000 health and social assistance establishments; 22,000 educational services establishments; 79,000 arts, entertainment, and recreation establishments; and 373,000 other services establishments.

**II. Method of Collection**

Establishments in these sectors of the economic census will be selected for mailout from a frame given by the Census Bureau's Standard Statistical Establishment List. To be eligible for selection, an establishment will be required to satisfy the following conditions: (i) It must be classified in the professional, management, and support services; health and social assistance; educational services; arts, entertainment, and recreation; or other services sectors; (ii) it must be an active operating establishment of a multi-establishment firm, or it must be a single-establishment firm with payroll; and (iii) it must be located in one of the 50 states or the District of Columbia. Mail selection procedures will distinguish the following groups of establishments:

**A. Establishments of Multi-Establishment Firms**

Selection procedures will assign all active operating establishments of multi-establishment firms to the mail component of the potential respondent universe. We estimate that the census mail canvass for 1997 will include approximately 136,000 professional, management, and support services multi-establishment firms; 114,000 health and social assistance multi-establishment firms; 3,000 educational services multi-establishment firms; 9,000 arts, entertainment, and recreation multi-establishment firms; and 75,000 other services multi-establishment firms.

**B. Single-Establishment Firms With Payroll**

As an initial step in the selection process, we will conduct a study of the potential respondent universe for

professional, management, and support services; health and social assistance; educational services; arts, entertainment, and recreation; and other services sectors. The study of potential respondents will produce a set of industry-specific payroll cutoffs that we will use to distinguish large versus small single-establishment firms within each industry or kind of business. This payroll size distinction will affect selection as follows:

#### 1. Large Single-Establishment Firms

Selection procedures will assign large single-establishment firms having annualized payroll (from Federal administrative records) that equals or exceeds the cutoff for their industry to the mail component of the potential respondent universe. We estimate that the census mail canvass for 1997 will include approximately 176,000 professional, management, and support services firms; 154,000 health and social assistance firms; 5,000 educational services firms; 41,000 arts, entertainment, and recreation firms; and 129,000 other services firms in this category.

#### 2. Small Single-Establishment Firms

Selection procedures will assign a sample of small single-establishment firms having annualized payroll below the cutoff for their industry to the mail component of the potential respondent universe. Sampling strata and corresponding probabilities of selection will be determined by a study of the potential respondent universe conducted shortly before mail selection operations begin. We estimate that the census mail canvass for 1997 will include approximately 49,000 professional, management, and support services firms; 31,000 health and social assistance firms; 2,000 educational services firms; 4,000 arts, entertainment, and recreation firms; and 27,000 other services firms in this category.

All remaining single-establishment firms with payroll will be represented in the census by data from Federal administrative records. Generally, we will not include these small employers in the census mail canvass. However, administrative records sometimes have fundamental deficiencies that make them unsuitable for use in producing detailed industry statistics by geographic area. When we find such a deficiency, we will mail the firm a census short form to collect basic information needed to resolve the problem. We estimate that the census mail canvass for 1997 will include approximately 233,000 professional, management, and support services

firms; 169,000 health and social assistance firms; 12,000 educational services firms; 25,000 arts, entertainment, and recreation firms; and 142,000 other services firms in this category.

#### III. Data

This information collected from businesses in these sectors of the economic census will produce basic statistics by kind of business for number of establishments, sales, payroll, and employment. It also will yield a variety of subject statistics, including sales by receipts or revenue line, sales by class of customer, and other industry-specific measures. Primary strategies for reducing burden in Census Bureau economic data collections are to increase electronic reporting through broader use of computerized self-administered census questionnaires, electronic data interchange, and other electronic data collection methods.
