

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for

authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,
Secretary.

Accidental Release Prevention Requirements: Risk Management Programs Under Section 112(r)(7) of the Clean Air Act as Amended; Draft Guidances

AGENCY: Environmental Protection Agency.

ACTION: Extension of Comment Deadline.

SUMMARY: EPA published a notice on January 30, 1996 (61 FR 3031) announcing the availability of draft guidance documents associated with risk management programs under Section 112(r)(7) of the Clean Air Act (CAA), as amended. These draft guidance documents are: "Offsite Consequence Assessment"; "Generic Guidance Risk Management Program (RMP) for Ammonia Refrigeration Facilities"; and "Risk Management Plan Data Elements" and "Data Elements Instructions." EPA has learned that some of guidance materials were not immediately available and that more time is necessary for review and comment. This notice extends the deadline for submission of comments.

As the initial notice of availability stated, these documents are not rules or proposed rules. The Agency is willing to accept and consider comments at any time during the life of these guidance documents. However, the CAA requires that certain guidance materials must be issued when EPA promulgates regulations under section 112(r)(7)(B). Consequently, comments received by the deadline will be used to shape the guidance to be issued at that time. While comments received after the deadline may be considered, those comments and even those after publication may be used in future revisions to the guidance documents.

DATES: Those who wish to express their views concerning the material contained in the guidances should submit written comments by March 29, 1996 to Docket A-91-73 Category VIII-B, at the address below, or via e-mail to A-and-R-Docket@epamail.epa.gov.

ADDRESSES: *Docket.* EPA Air and Radiation Docket and Information

Center, room M1500, U.S. Environmental Protection Agency (6102), 401 M Street S.W., Washington, D.C. 20460. Please identify comments with the docket number A-91-73 Category VIII-B. Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: A-and-R-Docket@epamail.epa.gov. Electronic comments must be submitted as ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number A-91-73 Category VIII-B. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this draft guidance may be filed online at many Federal Depository Libraries.

FOR FURTHER INFORMATION CONTACT: Contact the Emergency Planning and Community Right-to-Know Information Hotline at (800) 535-0202 or (703) 412-9877 when calling from local Washington, D.C. area or contact Craig Matthiessen in the Chemical Emergency Preparedness and Prevention Office at (202) 260-9781.

Dated: February 26, 1996.

Jim Makris,

Director, Chemical Emergency Preparedness and Prevention Office.

Formation and Open Meeting of the Industrial Non-Hazardous Waste Stakeholders Focus Group

AGENCY: Environmental Protection Agency.

ACTION: Notice of establishment of the Industrial Non-Hazardous Waste Stakeholders Focus Group and Notice of first meeting.

SUMMARY: As required by sections 9 (a)(2) and 10 (a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), EPA is giving notice of the formation of the Industrial Non-Hazardous Waste Stakeholders' Focus Group and of its first meeting. EPA has determined that this action is in the public interest. The purpose of this committee is to advise EPA and ASTSWMO (the Association of State and Territorial Solid Waste Management Officials) in developing voluntary guidance for the management of industrial nonhazardous waste in land-based disposal units. The Focus Group
