**AGENCY:** Environmental Protection Agency (USEPA).

**ACTION:** Proposed rule.

**SUMMARY:** In this action, USEPA proposes to approve the State Implementation Plan (SIP) revision for the Wayne County, Michigan, particulate matter nonattainment area. The SIP submittal consists of State Administrative Rule 374 (R 336.1374), effective July 26, 1995, and is intended to satisfy the contingency measures requirement specified in section 172(c)(9) of the Clean Air Act. In the final rules section of this Federal Register, USEPA is approving the SIP revision as a direct final rule without prior proposal, because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The USEPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

#### Approval and Promulgation of Air Quality Implementation Plans; Maryland; Major VOC Source RACT and Minor VOC Source Requirements

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing conditional approval of State Implementation Plan (SIP) revisions submitted by the State of Maryland. These revisions pertain to Maryland's major source volatile organic compound (VOC) reasonably available control technology (RACT) regulation and minor VOC source requirements. The RACT regulation applies to major VOC sources that are not covered by Maryland's category specific VOC RACT regulations. The minor source requirements apply to smaller VOC sources that are not covered by RACT regulations. EPA is proposing approval of these SIP revisions on the condition that the State of Maryland certifies that it has determined and imposed RACT for all the major VOC sources covered by the VOC RACT regulation, and has submitted those enforceable RACT determinations to EPA as SIP revisions. That certification must be made by the Maryland Department of the Environment by no later than one year from the date EPA promulgates final conditional approval of this SIP revision. If the State fails to do so, that final conditional approval will convert to a disapproval. This action is being taken in accordance with the SIP submittal and revision provisions of the Act.

**DATES:** Comments must be received on or before April 1, 1996.
