BILLING CODE 3510-DS-P

National Oceanic and Atmospheric Administration

National Weather Service To Discontinue the Issuance of All Routine Agricultural Forecasts and Fruit Frost Forecasts

AGENCY: National Weather Service, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: This notice updates the National Weather Services (NWS) plans to transfer Agricultural Weather Services to the private sector, notice of which was published on July 5, 1995; see National Weather Service Transfer of Specific Products and Services to the Private Sector, 60 Fed. Reg. 34969.

EFFECTIVE DATE: This action becomes effective April 1, 1996, for routine agricultural forecasts and April 20, 1996, for fruit frost forecasts.

ADDRESSES: National Weather Service, Industrial Meteorology Staff, 1325 East-West Highway, #18462, Silver Spring, Maryland 20910.

FOR FURTHER INFORMATION CONTACT: Edward Gross, 301-713-0258.

SUPPLEMENTARY INFORMATION: On July 5, 1995, the National Weather Service (NWS) announced that it planned to transfer specific products and services to the private sector effective October 1, 1995. Subsequently, concerns were raised about the disruption of critical forecasts to regions of the United States dependent on receiving NWS agricultural weather services and the Conference Report for the Department of Commerce Fiscal Year 1996.

Appropriations Bill to accompany H.R. 2076 noted that, "it may be necessary within funds available to provide Agricultural Weather Services for a limited time."

Accordingly, NWS has continued and will continue routine agricultural forecasts until April 1, 1996, and will continue those Fruit Frost Forecasts that it has already commenced providing until April 20, 1996. At that time, funds available for Agricultural Weather Services will be exhausted. However, if a freeze or very cold weather is in progress on April 20, 1996, fruit frost products will continue until the episode ends.

The NWS has been notifying customers of changes to its Agricultural Weather Services program since July 1995. The provision of these services has been extended from October 1, 1995 until April 20, 1996 for the purpose of minimizing the disruption of critical forecasts to certain regions and to allow customers an opportunity to find alternative sources of agricultural weather information from the private sector. This action complies with the conference language of maintaining a goal of smoothly transferring services to those private sector vendors capable and willing to assume them.

The following NWS agricultural products will no longer be available:
Agricultural Weather Forecast
Fruit Frost Forecast
Special Agricultural Weather Advisory
Weather Advisory for Ag Operations
30-day Agricultural Weather Outlook
National Agricultural Weather Highlights
Cranberry Bog Forecasts

The U.S. Department of Agriculture's Joint Agricultural Weather Facility will continue producing the International Weather and Crop Bulletin.

Dated: February 27, 1996.
 Susan F. Zevin,
 Deputy Administrator for Operations.
