1. The Commission completed a full review of the mission, processes, and organization of the Compliance and Information Bureau and has determined to make changes to them in order to create a more effective organization within the limits of our budgetary constraints.

2. The Commission will automate the high frequency direction-finding network by installing new technology which can be remotely-controlled from a single office. The Commission will also establish a complaint and inquiry intake center, with a toll-free (800 or 888) number, to centralize and make more efficient agency provision of information and processing of complaints. The Commission will close its offices in Buffalo, New York; Miami, Florida; St. Paul, Minnesota; Norfolk, Virginia; Portland, Oregon; Houston, Texas; San Juan, Puerto Rico; Anchorage, Alaska; and Honolulu, Hawaii. Two technical staff will be retained in each of these cities as resident enforcement agents. The remaining offices will be fully staffed and equipped to maintain the Commission's Enforcement program.

3. The amendments adopted pertain to agency organization, procedure, and practice. Consequently, the requirement of notice and comment and the effective date provisions of the Administrative Procedures Act, 5 U.S.C. § 553(b), (d), do not apply.

4. Authority for the amendments adopted is contained in Sections 4(i), 5(b), 5(c)(1) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 155(b), 155(c)(1), 303(r).

[PR Docket No. 93–35; FCC 96–53]

Channel Exclusivity to Qualified Private Paging Systems at 929–930 MHz

AGENCY: Federal Communications Commission.

ACTION: Final Rule.

SUMMARY: In this *Memorandum Opinion and Order*, the Commission reviews six petitions for reconsideration and/or clarification of the *PCP Exclusivity Order* in this docket establishing channel exclusivity for qualified local, regional, and nationwide paging systems in the 929–930 MHz band, and grants the petitions in part and denies them in part. The petitions requesting exclusivity to regional 929 MHz systems in regions defined by state borders, rather than based on their actual service areas, are denied. The petitions that seek to increase the maximum transmitter power for local and regional systems are granted. Additionally, the Commission partially grants certain pending waiver requests of incumbent licensees seeking additional time to comply with multi-frequency transmitter specifications. The intended effect of this order is to affirm that exclusivity to regional 929 MHz systems is granted based on the service area as set forth in the *PCP Exclusivity Order* and to amend the rules to facilitate the rapid and efficient licensing of paging in the 929–930 MHz band. These amendments to the regional channel exclusivity scheme established in the *PCP Exclusivity Order* will facilitate the development of seamless, wide-area 900 MHz paging systems.

EFFECTIVE DATE: April 4, 1996.

Synopsis of Memorandum Opinion and Order

I. Introduction

Before the Commission are six petitions for reconsideration and/or clarification of our *PCP Exclusivity Order*, Amendment of the Commission's Rules to Provide Channel Exclusivity to Qualified Private Paging Systems at 929–930 MHz, *Report and Order*, PR Docket No. 93–35, 58 FR 62289 (November 26, 1993) (*PCP Exclusivity Order*), establishing channel exclusivity for qualified local, regional, and nationwide paging systems in the 929–930 MHz band. After reviewing the issues involved, the Commission grants the petitions in part and denies them in part. In particular, the Commission denies petitions requesting that exclusivity be granted to regional 929 MHz systems in regions defined by state borders, rather than based on their actual service areas. The Commission partially grants those petitions that seek to increase the maximum transmitter power for local and regional systems. The Commission also partially grants certain pending waiver requests of incumbent licensees seeking additional time to comply with the multi-frequency transmitter specifications. The Commission otherwise affirms the rules governing 929 MHz private paging as adopted in the *PCP Exclusivity Order*.

Additionally, the Commission is adopting a *Notice of Proposed Rule Making* in WT Docket No. 96–18, 61 FR 6199 (February 16, 1996) to examine ways to promote continued growth of the paging industry. In the *Notice of Proposed Rulemaking*, the Commission proposes to adopt new rules providing that future licensing of all exclusive paging channels, including 929 MHz channels, will be based on market-defined service areas, with mutually exclusive applications to be resolved by competitive bidding. Therefore, the conclusions reached in this *Memorandum Opinion and Order* are subject to future modification based on
