March 5, 1996.

Take notice that on February 29, 1996, Wyoming Interstate Company (WIC), tendered for filing its first annual Recomputation of Fuel, Lost and Unaccounted-for Percentage (FL&U) Filing with the Federal Energy Regulatory Commission. WIC proposes a December 1, 1995 effective date. WIC states that the FL&U percentage of 0% to .07% was based on the actual FL&U usage adjusted for a measurement error caused by pulsation at WIC's Dull Knife meter site, actual system throughput and actual customer retention to date since the inception of WIC's FL&U tariff mechanism through December 31, 1995.

On October 3, 1995, WIC states that it filed a motion for an extension of time within which to submit its annual FL&U filing, in accordance with Section 24 of the General terms and Conditions in WIC's First Revised Volume No. 1 and Article 31 in WIC's Second Revised Volume No. 2. On October 20, 1995, the Commission granted WIC an extension of time until February 29, 1996 to file its first annual FL&U filing so that accurate measured volumes could be reflected in its filing.

WIC is also proposing a change in its tariff to accommodate an FL&U percentage of no less than zero.

WIC states that copies of the filing were served upon the company's intervening jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.211 and 385.214 of the Commission's Rules and Regulations. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
