Funds are deferred pending the development of country-specific plans that assure that aid is provided in an efficient manner and are reserved for unanticipated program needs. This action is taken pursuant to the Antideficiency Act (31 U.S.C. 1512).

**JUSTIFICATION:** The President is authorized by the Arms Export Control Act to sell or finance by credit, loan guarantees, or grants, articles and defense services to friendly countries to facilitate the common defense. Under Section 2 of the Act, the Secretary of State, under the direction of the President, is responsible for sales made under this Act. Executive Order 11958 further requires the Secretary of State to obtain prior concurrence of the Secretaries of Defense and Treasury, respectively, regarding consistency of transactions with national security and financial policies.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the direct loans obligated and loan guarantees for foreign military financing committed in FY 1992 and beyond. The foreign military financing credit program provides loans that finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. The subsidy amounts are estimated on a present value basis.

This action defers funds pending review of specific loans to eligible countries by the Departments of State, Treasury, and Defense. The review process will ensure that in each proposed program the proposed recipients are qualified and that the limits of available funds are not exceeded. This action is taken pursuant to the Antideficiency Act (31 U.S.C. 1512).

**Estimated Program Effect:** None

**Outlay Effect:** None

1/ This account was the subject of a similar deferral in FY 1995 (D95-3).
