BILLING CODE 4210-29-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Species
Permit Applications

AGENCY: Fish and Wildlife, Interior.

ACTION: Notice of receipt of applications.

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*).

Permit No. 808241

Applicant: Sonoma Water Agency, Santa Rosa, California.

The applicant requests a permit to take (capture and release) the California freshwater shrimp (*Syncaris pacifica*) in Sonoma, Marin, Lake, and Mendocino Counties, California to determine its presence or absence for the purpose of enhancing its survival.

Permit No. 810193

Applicant: Michelle McCollom Caurana, Trabuco Canyon, California.

The applicant requests a permit to take (harass by survey) the southwestern willow flycatcher (*Empidonax traillii extimus*) in Orange, San Diego, Riverside, and San Bernardino Counties, California to determine its presence or absence for the purpose of enhancing its survival.

Permit No. 802447

Applicant: Kimberly T. Miller, San Diego, California.

The applicant requests an amendment to their permit to include taking (harass by survey) the southwestern willow flycatcher (*Empidonax traillii extimus*) in San Diego, Riverside, Orange, and Los Angeles Counties, California to determine its presence or absence for the purpose of enhancing its survival.

Permit No. 810766

Applicant: Paul A. Hamilton, Campo, California.

The applicant requests a permit to take (harass by survey) the southwestern willow flycatcher (*Empidonax traillii extimus*) to determine its presence or absence; and take (locate and monitor nests) the least Bells' vireo (*Vireo bellii pusillus*) to conduct population monitoring studies in Ventura, Los Angeles, San Bernardino, Riverside, Orange, Kern, and San Diego Counties, California for the purpose of enhancing their survival.

Permit No. 810768

Applicant: Harmsworth Associates, Dove Canyon, California.

The applicant requests a permit to take (locate and monitor nests) the least Bells' vireo (*Vireo bellii pusillus*) in Los Angeles, San Diego, Riverside, San Bernardino, Orange, and Ventura Counties, California to conduct population monitoring studies for the purpose of enhancing its survival.

Permit No. 782774

Applicant: Michael Brandman Associates, Sacramento, California.

The applicant requests an amendment to their permit to include taking (harass by survey, and collect and sacrifice voucher specimens) the Conservancy fairy shrimp (*Branchinecta conservatio*), longhorn fairy shrimp (*Branchinecta longiantenna*), Riverside fairy shrimp (*Streptocephalus woottoni*), vernal pool tadpole shrimp (*Lepidurus packardii*), and vernal pool fairy shrimp (*Branchinecta lynchi*) in vernal pools throughout the species' range in California to determine presence or absence of the species for the purpose of enhancing their survival.

Permit No. 798744

Applicant: Kootenai Tribe of Idaho, Bonners Ferry, Idaho

The applicant requests an amendment of their permit to take (capture, collect, radio tag, mark, and release) the Kootenai River population of the white sturgeon (*Acipenser transmontanus*) to include that portion of the entire Kootenai River in Montana for conducting captive propagation and scientific research for the purpose of enhancing its propagation and survival.

Permit No. 781084

Applicant: Anita Marie Hayworth, San Diego, California.

The applicant requests an amendment to their permit to include taking (harass by survey) the southwestern willow flycatcher (*Empidonax traillii extimus*) in San Diego, Orange, Riverside, and San Bernardino Counties to determine its presence or absence for the purpose of enhancing its survival.

Permit No. 781217

Applicant: Chambers Group, Inc., Irvine, California.

The applicant requests an amendment to their permit to include taking (harass by survey, and locate and monitor nests) the southwestern willow flycatcher (*Empidonax traillii extimus*) in San Diego, Orange, Riverside, Los Angeles, Santa Barbara, Ventura, and San Bernardino Counties to determine its presence or absence and conduct population monitoring studies for the purpose of enhancing its survival.

Permit No. 811188

Applicant: Resource Conservation District of the Santa Monica Mountains, Topanga, California.

The applicant requests a permit to take (capture and release) the tidewater goby (*Eucyclogobius newberryi*) in Malibu Lagoon, Los Angeles County, California to conduct population monitoring studies for the purpose of enhancing its survival.

Permit No. 811049

Applicant: Clifford W. Morden, University of Hawaii, Honolulu, Hawaii.

The applicant requests a permit to remove and reduce to possession one leaf from 10–20 individual *Haplostachys haplostachya* var. *angustifolia* (no common name) plants in 3 subpopulations from the Mouna Loa/Kea area of Hawaii to conduct genetic analyses for the purpose of enhancing its survival.

Permit No. 807078

Applicant: Point Reyes Bird Observatory, Stinson Beach, California.

The applicant requests a permit to take (capture, band, color band, and release; and erect predator exclosures) the western snowy plover (*Charadrius alexandrinus nivosus*) in Santa Cruz, Monterey, Santa Barbara (including Santa Rosa Island), Marin, and San Mateo Counties, California to conduct population monitoring and management of the species for the purpose of enhancing its survival. These activities were previously authorized under the Regional Director's permit no. PRT-702631.

Permit No. 787376

Applicant: Peter H. Bloom, Santa Ana, California.

The applicant requests an amendment to their permit to include taking (capture and release) the Pacific pocket mouse (*Perognathus longimembris pacificus*) in Los Angeles, Orange, and San Diego Counties, California to determine its presence or absence for the purpose of enhancing its survival.

Permit No. 811332

Applicant: John A. Ebrey, Jacksonville, Illinois.

The applicant requests a permit to purchase in interstate commerce one pair of captive bred Hawaiian (=nene) geese (*Nesochen* [= *Branta*] *sandvicensis*) from Charles Nugent of Kimbolton, Ohio for the purpose of enhancing its propagation and survival.

Permit No. 781384

Applicant: Thomas A. Leslie, Riverside, California.

The applicant requests an amendment to their permit to include taking (harass by survey) the southwestern willow flycatcher (*Empidonax traillii extimus*) throughout the known range of the species in southern California to determine its presence or absence for the purpose of enhancing its survival.

Permit No. 780565

Applicant: Jeff Wells, San Diego, California.

The applicant requests an amendment to their permit to include taking (harass by survey, and locate and monitor nests) the southwestern willow flycatcher (*Empidonax traillii extimus*) in San Diego and Orange Counties to determine presence or absence and conduct population monitoring of the species for the purpose of enhancing its survival.

Permit No. 797228

Applicant: Martin R. Brittan, Folsom, California.

The applicant requests an amendment to their permit to include taking (harass by survey, and collect and sacrifice voucher specimens) the Riverside fairy shrimp (*Streptocephalus woottoni*) to determine its presence or absence and to increase the area of authorized activities to throughout the species' range in California for the purpose of enhancing the survival of the species.

Permit No. 811894

Applicant: Samuel M. McGinnis.

The applicant requests a permit to take (capture, mark, and release) the salt marsh harvest mouse (*Reithrodontomys raviventris*) and San Francisco garter snake (*Thamnophis sirtalis tetrataenia*) in San Mateo, Alameda, and Sonoma Counties, California to conduct presence or absence surveys and to aid in population management for the purpose of enhancing their survival. These activities were previously authorized under the Regional Director's permit No. PRT-702631.

DATES: Written comments on the permit applications must be received April 15, 1996.

ADDRESSES: Written data or comments should be submitted to the Chief, Division of Consultation and Conservation Planning, Ecological Services, U.S. Fish and Wildlife Service, 911 N.E. 11th Avenue, Portland, Oregon 97232-4181. Please refer to the respective permit number for each application when submitting comments. All comments, including names and addresses, received will become part of the official administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT: Documents and other information submitted with these applications are

available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents, within 30 days of the date of publication of this notice, to the following office: U.S. Fish and Wildlife Service, Ecological Services, Division of Consultation and Conservation Planning, 911 N.E. 11th Avenue, Portland, Oregon 97232-4181. Telephone: 503-231-2063; FAX: 503-231-6243. Please refer to the respective permit number for each application when requesting copies of documents.

Dated: March 7, 1996.

Thomas Dwyer,
Deputy Regional Director, Region 1, Portland,
Oregon.

BILLING CODE 4310-55-P

Endangered and Threatened Species Permit Application

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of application.

The following applicant has applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*).

Applicant: David L. Evans, Hawk Ridge Research Station, Duluth, Minnesota.

The applicant requests a permit to take (capture, handle, band and release) Bald Eagles (*Haliaeetus leucocephalus*) and Peregrine Falcons (*Falco peregrinus*) in Minnesota and Wisconsin for scientific research. Banding of these species is a recovery action as identified in approved recovery plans.

Written data or comments should be submitted to the Regional Director, U.S. Fish and Wildlife Service, Division of Endangered Species, 1 Federal Drive, Fort Snelling, Minnesota 55111-4056, and must be received within 30 days of the date of this publication.

Documents and other information submitted with this application are available for review by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Division of Endangered Species, 1 Federal Drive, Fort Snelling, Minnesota 55111-4056. Telephone: (612/725-3536 x250); FAX: (612/725-3526).

Dated: March 8, 1996.

Mamie A. Parker,

Acting Assistant Regional Director, Ecological Services, Region 3, Fish and Wildlife Service, Fort Snelling, Minnesota.

BILLING CODE 4310-55-M

Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit for a Project Called Woolbright Joint Venture, Located in the City of Boynton Beach, Palm Beach County, Florida

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Mr. Howard R. Scharlin, Trustee (Applicant), is seeking an incidental take permit from the Fish and Wildlife Service (Service), pursuant to Section 10(a)(1)(B) of the Endangered Species Act of 1973 (Act), as amended. The permit would authorize the take of two families of the threatened Florida scrub jay, *Aphelocoma coerulescens* in Palm Beach County, Florida for a period of 5 years. The proposed taking is incidental to construction of a mixed commercial and residential development called Woolbright Place, including the necessary infrastructure, on approximately 98.3 acres (Project). Within the Project, 3.2 acres are occupied by Florida scrub jays and will be permanently altered. The Project is in the northwest quadrant of the intersection of Woolbright Road and Interstate 95, within Section 29, Township 45 South, Range 43 East, Palm Beach County, Florida.

The Service also announces the availability of an environmental assessment (EA) and habitat conservation plan (HCP) for the incidental take application. Copies of the EA or HCP may be obtained by making a request to the Regional Office address below. Requests must be submitted in writing to be adequately processed. This notice also advises the public that the Service has made a preliminary determination that issuing the incidental take permit is not a major Federal action significantly affecting the quality of the human environment within the meaning of Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended. The Finding of No Significant Impact (FONSI) is based on information contained in the EA and HCP. The final determination will be made no sooner than 30 days from the date of this notice. This notice

is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act Regulations (40 CFR 1506.6). **DATES:** Written comments on the permit application, EA and HCP should be received on or before April 15, 1996.

ADDRESSES: Persons wishing to review the application, HCP, and EA may obtain a copy by writing the Service's Southeast Regional Office, Atlanta, Georgia. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, or the South Florida Ecosystem Office, Vero Beach, Florida. Written data or comments concerning the application, EA, or HCP should be submitted to the Regional Office. Please reference permit under PRT-811902 in such comments.

Endangered/Threatened Species Permit Coordinator, U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345, (telephone 404/679-7110, fax 404/679-7081).

Field Supervisor, U.S. Fish and Wildlife Service, South Florida Ecosystem Office, Post Office Box 2676, Vero Beach, Florida 32961-2676, (telephone 407/562-3909, facsimile 407/562-4288).

FOR FURTHER INFORMATION CONTACT: Brian Toland at the South Florida Ecosystem Office, Vero Beach, Florida, or Rick G. Gooch at the Atlanta, Georgia, Regional Office.

SUPPLEMENTARY INFORMATION: *Aphelocoma coerulescens* is geographically isolated from other subspecies of scrub jays found in Mexico and the Western United States. The Florida scrub jay is found almost exclusively in peninsular Florida and is restricted to scrub habitat. The total estimated population is between 7,000 and 11,000 individuals. Due to habitat loss and degradation throughout the State of Florida, it has been estimated that the Florida scrub jay population has been reduced by at least half in the last 100 years. Surveys have indicated that one family of Florida scrub jay inhabit the Project site. Construction of the Project's infrastructure and subsequent construction of the individual homesites will likely result in death of, or injury to, *Aphelocoma coerulescens* incidental to the carrying out of these otherwise lawful activities. Habitat alteration associated with property development will reduce the availability of feeding, shelter, and nesting habitat.

The EA considers the environmental consequences of three alternatives. The no action alternative may result in loss of habitat for *Aphelocoma coerulescens*
