I. Final approval under OMB delegated authority of the implementation of the following report:
Report title: Federal Reserve Check Fraud Survey.

Agency form number: FR 3080.

OMB Control number: 7100-0279.

Frequency: One-time.

Reporters: Commercial banks, savings associations, and credit unions.

Annual reporting hours: 14,976.

Estimated average hours per response: 9.

General description of report: This information collection is voluntary [Publ. L. 103-325, Title III, section 333] and is confidential [5 U.S.C. section 552(b)(4)].

Abstract: The Board has approved conducting a one-time, voluntary check-fraud survey in March 1996. The responses to the survey will be used by the Board in fulfilling the Congressional mandate to determine whether there is a pattern of significant increases in losses related to check fraud at depository institutions attributable to the provisions of the Expedited Funds Availability Act (EFAA); to consider whether an extension by one day of the period between the deposit of a local check and the availability of funds for withdrawal would be effective in reducing the volume of losses related to check fraud; and to make recommendations for legislative actions.

II. Justification

The 1994 Community Development Banking Act states that the Board shall "conduct a study on the advisability of extending the 1-business-day period specified in section 603(b)(1) of the Expedited Funds Availability Act (EFAA), regarding availability of funds deposited by local checks, to 2 business days." The report is to be submitted to the Congress by September 23, 1996. The Congress further directed the Board to:

- Consider whether there is a pattern of significant increases in losses related to check fraud at depository institutions attributable to the provisions of the EFAA;

- Consider whether an extension by one day of the period between the deposit of a local check and the availability of funds for withdrawal would be effective in reducing the volume of losses related to check fraud; and

- Make recommendations for legislative action.

On December 20, 1995, the Board requested public comment on a proposed check-fraud survey. The survey is intended to obtain data on the number of cases of check fraud and the amount of losses incurred by depository institutions attributed to check fraud.

III. Analysis of Comments

The Board received 45 comment letters on the proposed survey. The following table identifies the number of commenters by type of organization:

Commercial Banking Organizations ¹	28
