**Agency Information Collection Activities Under OMB Review; Notification of Arrival of Pesticides and Devices (EPA Form 3540-1) (ICR #152.05 and OMB #2070-0020)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces

that the Information Collection Request (ICR) abstracted below, Notice of Arrival of Pesticides and Devices (EPA Form 3540-1, OMB Control No. 2070-0020: ICR No. 152.05), has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before April 15, 1996.

**FOR FURTHER INFORMATION OR A COPY**

**CALL:**

Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 152.03.

**SUPPLEMENTARY INFORMATION:**

*Title:* Notice of Arrival of Pesticides and Devices (EPA Form 3540-1, OMB Control No. 2070-0020: EPA ICR No. 152.05). This is a request for an extension of a currently approved collection.

*Abstract:* Pursuant to section 17(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) U.S. Customs is required to notify EPA prior to the import of pesticides or devices into the United States. To assist in meeting this requirement, importers, who may be represented by brokers, agents, or consignees, must present a Notice of Arrival (NOA, EPA Form 3540-1) to the EPA informing the Agency of the arrival of the imported pesticide products as required by 19 CFR 12.112. The form is submitted to the EPA regional address (printed on the reverse side of the form) having jurisdiction over the port through which the product or device is to be imported.

Part I of the form requests identification and address information of the importer or his agent followed by information on the imported pesticide or device, e.g., the active ingredients or devices produced, brand name, the product registration number (for pesticides but not devices), and the establishment registration number. Certain information reported on the form (name and address of broker or agent, of importer or consignee, and of shipper, along with unit size, quantity, total net weight, country of origin, port of entry, carrier, entry number, and entry date) may be claimed as Confidential Business Information (CBI). Other information (EPA Registration Number, EPA Producer Establishment Number, the brand name of product, and major active ingredients and percentage of each) may not be claimed as CBI.

EPA regional personnel review the completed form for completeness and

accuracy and to determine: (1) if, in the case of pesticides but not devices, the product is registered and has a valid registration number, and if the product contains an active ingredient that has been suspended or cancelled; (2) if the product was produced in a currently registered establishment; and (3) if the product is misbranded. EPA resolves any discrepancies on the report with the importer or his agent. If the information on the form is correct, Part II is signed and the form is returned to the respondent with approval.

Upon the arrival of the shipment, the importer presents the NOA to the District Director of U.S. Customs at the port of entry. The U.S. Customs compares entry documents for the shipment with the Notice of Arrival; it notifies the EPA regional office of any discrepancies between the NOA and the entry documents and, in the absence of a discrepancy, releases the shipment for entry. Customs signs Part III of the form, returns the Official File Copy to EPA, and retains the Customs' Copy to complete this portion of the transaction.

The purpose of this reporting requirement is to help insure that pesticides and devices entering the U.S. comply with U.S. laws governing such products. Uniform reporting of information submitted for pesticides arriving in the customs territory of the U.S. is necessary to monitor compliance with FIFRA, to identify the responsible party in cases of violations, and to determine specific information regarding the source of any pesticide in question. The information permits EPA to stop ineffective, unregistered, suspended, cancelled, misbranded, contaminated, or otherwise violative products from being imported into the country, track those that do enter, and minimize adverse environmental impacts that might arise from the importation of violative products. Additionally, by requiring brokers/agents to offer documentation to Customs and EPA of the importation of registered pesticides, the flow of commerce for approved products is facilitated. The information collected is used by EPA regional pesticide enforcement and compliance staff, the Office of Enforcement and Compliance Assurance and Office of Pesticide Programs. U.S. Customs, the U.S. Department of Agriculture, the Food and Drug Administration, and other Federal agencies also make use of this information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control

numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on November 28, 1995 (60 FR 58622). No comments were received.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.30 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to: review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Persons importing pesticide products and devices.

**Estimated number of respondents:** 7,000 annually.

**Estimated number of responses:** 7,000 annually.

**Frequency of response:** Once per shipment of pesticide or device imported.

**Estimated total annual hour burden:** 2,100 hours.

**Estimated total annualized cost burden:** \$188,093.

Please send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing the respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR 152.05 and OMB Control No. 2070-0020 in any correspondence.

**Agency Information Collection Activities Under OMB Review; New Source Performance Standards (NSPS) for Municipal Waste Combustors (Subpart Ea) Reporting and Recordkeeping OMB No. 2060-0210 and EPA No. 1506.07**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: New Source Performance Standards for Municipal Waste Combustors (MWC) Subpart Ea—Reporting and Recordkeeping Requirements (EPA ICR No. 1506.07; OMB No. 2060-0210), with expiration date of May 31, 1996. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before April 15, 1996.

**FOR FURTHER INFORMATION OR A COPY CALL:** Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1506.07.

**SUPPLEMENTARY INFORMATION:**

**Title:** NSPS for Municipal Waste Combustors Subpart Ea (OMB Control No. 2060-0210; EPA ICR No. 1506.07); Expiring May 31, 1969. This is a request for renewal of a currently approved information collection request.

**Abstract:** These standards apply to municipal waste combustors (MWC) units with a capacity greater than 225 megagrams per day (250 tons per day) of municipal solid waste or refuse-derived fuel, for which construction, modification, or reconstruction commenced after December 20, 1989 and until September 20, 1994. Owners or operators of such units must provide EPA, or the delegated State regulatory authority, with the one-time notifications and reports, and must keep records, as required of all facilities subject to the general NSPS requirements. In addition, facilities subject to this subpart must install

continuous monitoring systems (CMS) to monitor specified operating parameters to ensure that good combustion practices are implemented on a continuous basis. Owners and operators must submit quarterly and annual compliance reports. The notification and reports enable EPA or the delegated State regulatory authority to determine the best demonstrated technology is installed and properly operated and maintained, and to schedule inspections. The responses to this information collection are mandatory under Clean Air Act section 111 and 40 CFR Part 60, Subpart Ea. The responses are not anticipated to be kept confidential due to the nature of the information collected; however, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR Part 2.

In terms of capital costs, the reporting and recordkeeping cost burden in #14 of the OMB Form 83-1 is stated as zero. First, there are no anticipated capital/startup costs for NSPS Subpart Ea during the startup of a new MWC for the installation of equipment for monitoring and recordkeeping and other related costs. No additional MWCs will be subject to the NSPS Subpart Ea, since all MWCs commencing construction, modification or reconstruction after September 20, 1994 will be subject to the NSPS Subpart Eb.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on December 8, 1995 (60 FR 63035). No comments were received.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 603 hours per respondent per year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions
