

students with disabilities majoring in other fields, and students without disabilities majoring in SEMT. Interviews with SEMT faculty at each institution will also be conducted. This approach will allow for exploration of the ways in which students with disabilities majoring in SEMT are similar to and different from other groups of students, as well as the views of faculty toward students with disabilities. The project is planned as a one-time data collection that will occur in the spring of 1996.

*Response time:* There are 1675 respondents with an average of 25 minutes per response.

Dated: March 11, 1996.

## NUCLEAR REGULATORY COMMISSION

[Docket Number 40-1162]

### Federal Register Notice of Amendment To Change Reclamation Milestone Dates in Source Material License SUA-56 Held by Western Nuclear, Inc., for the Split Rock, Wyoming Site

**AGENCY:** U.S. Nuclear Regulatory Commission.

**ACTION:** Amendment of Source Material License SUA-56 to change reclamation milestone dates.

**SUMMARY:** Notice is hereby given that the U.S. Nuclear Regulatory Commission has amended Western Nuclear, Inc.'s (WNI's) Source Material License SUA-56 to change the reclamation milestone dates. This amendment was requested by WNI by letter dated October 18, 1995, and its receipt by NRC was noticed in the Federal Register on January 22, 1996.

The license amendment modifies License Condition 75 to change the completion dates for several site-reclamation milestones. The new dates approved by the NRC extend completion of (1) placement of final radon barrier on portions of the disposal cells by up to three years, (2) placement of erosion protection by up to three years, and (3) projected completion of groundwater corrective actions by two years. WNI attributes the delays to the following factors: (1) Continued settlement in the tailings area containing extensive slime profiles, thus lengthening the time for pre-cover consolidation; (2) inclement weather creating a limited construction period

having warmer weather conditions conducive to placement of the radon barrier within density and moisture specifications; (3) materials handling issues, i.e., difficulty in obtaining specified soil moisture and density for clay placement during summer 1995 construction, resulting in construction delays; and (4) continued operations of the groundwater corrective action program.

An environmental assessment is not required since this action is categorically excluded under 10 CFR 51.22(c)(11), and an environmental report from the licensee is not required by 10 CFR 51.60(b)(2).

**SUPPLEMENTARY INFORMATION:** WNI's license, including an amended License Condition 75, and the NRC staff's technical evaluation of the amendment request are being made available for public inspection at the Commission's Public Document Room at 2120 L Street, NW (Lower Level), Washington, DC 20555.

**FOR FURTHER INFORMATION CONTACT:**

Mohammad W. Haque, Uranium Recovery Branch, Division of Waste Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone (301) 415-6640.

Dated at Rockville, Maryland, this 8th day of March 1996.

Joseph J. Holonich,

*Chief, Uranium Recovery Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.*

### Decommissioning of Sequoyah Fuels Corporation Uranium Conversion Facility in Gore, Oklahoma: Extension of Comment Period on Notice of Intent To Prepare an Environmental Impact Statement and To Conduct a Scoping Process

**AGENCY:** Nuclear Regulatory Commission.

**SUMMARY:** This notice informs the public about an extension of the public comment period on the U.S. Nuclear Regulatory Commission's intent to prepare an Environmental Impact Statement (EIS) for the decommissioning of the Sequoyah Fuels Corporation's (SFC) uranium conversion facility located in Gore, Oklahoma. NRC noticed its intent to prepare the EIS in the Federal Register on October 20, 1995 (60 FR 54260) and conducted a public meeting on the proposed scope of the EIS on November 15, 1995, in Gore. The comment period was originally supposed to close on March 29, 1996.

At the time of the original notice, NRC indicated that the public comment period was lengthened to allow public consideration of important site characterization information, which was expected to be submitted to NRC in December 1995 and January 1996. SFC was supposed to have submitted its Site Characterization Report for NRC review in January 1996. However, SFC delayed submission of the report until February 2, 1996. Reproduction of the report and distribution to interested parties has been further delayed.

Consequently, NRC is extending the public comment period on the notice to prepare the EIS until May 17, 1996, to allow time for distribution and public review of the site characterization information. In addition, NRC will conduct a public information roundtable meeting in Webbers Falls, Oklahoma on the evening of March 26, 1996.

**DATES:** Written comments received by May 17, 1996, on NRC's notice of intent to prepare an EIS on the decommissioning of the SFC's uranium conversion facility in Gore, Oklahoma, as described in the Federal Register on October 20, 1995 (60 FR 54260), will be considered in developing the scope of the EIS. Comments received after this date will be considered if practical to do so, but NRC is able to assure consideration only for comments received on or before this date.

A public information roundtable meeting will be held at the Town Hall in Webbers Falls, Oklahoma on March 26, 1996, from 7 to 10 p.m.

**ADDRESSES:** Written comments on the matters covered by this notice should be sent to the Rules Review and Directives Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Hand deliver.

Comments to 11555 Rockville Pike, Rockville, Maryland 20852, between 7:45 a.m. and 4:15 p.m., on Federal workdays.

**FOR FURTHER INFORMATION CONTACT:** James C. Shepherd, Project Manager, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, U.S. Nuclear Regulatory Commission, Mail Stop T7F27, Washington, DC 20555, Telephone: (301) 415-6712.

Dated at Rockville, Maryland this 9th day of March, 1996.
