Glacier Bay National Park and Preserve, Alaska: Vessel Management Plan

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability of a Finding of No Significant Impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (P.L. 91-190, as amended), the National Park Service (NPS) has prepared a Finding of No Significant Impact (FONSI) for the Glacier Bay National Park and Preserve Vessel Management Plan/Environmental Assessment (VMP/EA). The NPS finds that the modified alternative does not constitute a major federal action significantly affecting the quality of the human environment. Therefore, in accordance with the National Environmental Policy Act of 1969 and the regulations of the Council of Environmental Quality (40 CFR 1508.9), an environmental impact statement will not be prepared for this action.

DATES: The FONSI will be made available for a 30-day public review period. The review period will close April 19, 1996. Depending on the public review of the FONSI, the NPS expects to publish a final rule in the Federal Register to implement the vessel management plan. The NPS is considering the possibility of seeking a good cause exemption, under Section 553(d)(3) of the Administrative Procedures Act, to the 30-day delayed effective date to make the rule effective immediately following publication in the Federal Register.

ADDRESSES: Copies of the FONSI and supporting environmental analysis are available on request from the Chief, Division of Environmental Quality, National Park Service, Alaska Systems Support Office, 2525 Gambell Street, Room 404, Anchorage, Alaska 99503.

FOR FURTHER INFORMATION CONTACT: Glen Yankus, Alaska System Support Office, (907) 257-2645.
