SUPPLEMENTARY INFORMATION:

OMB Approval No.: 3060-0444.

Number of Respondents: 11,500.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 11,500 hours.

Total Annualized Cost per respondent: There are no start up or operational and maintenance costs associated with this collection.

Needs and Uses: The commission requests this collection of information as a method for licensees to provide information to verify a station has been placed into operation and to notify the Commission of the actual number of mobile units placed in operation after license grant. From this data, the Commission is able to determine full capacity channel loading, making frequencies available for assignment and modifying or cancelling licenses. The data collected ensures licensees are not authorized for more mobiles than they are actually using. The data collected is required by the Communications Act and FCC Rules 90.155, 90.313, 90.495, 90.496, 90.631, 90.633, 90.651, 90.725 and 90.737. The entities identified in the current 800A letter, such as trunked, convention, etc., have been re-named as CMRS and PMRS. The current 800A letter requests a breakdown in the types of mobiles and control stations, while the proposed 800A letter asks for a total number of mobiles and the number of parties affiliated with, controlled by, or related to the provider. The number of responses and estimated burden remains unchanged.
