Tennessee states that it is filing the proposed changes to eliminate its current Umbrella Service because its Supply Aggregation (SA) service, which was implemented for all shippers as of January 1, 1996 in Docket No. RP95-206, provides all of the services heretofore provided by the Umbrella Service. Thus, Tennessee states that the Umbrella Service is duplicative of SA Service and is no longer necessary.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,
 Secretary.

[Project No. 1951-037]

Georgia Power Company; Notice of Availability of Final Environmental Assessment

March 19, 1996.

By letter to the Commission dated November 19, 1993, Georgia Power Company proposed to prepare and file an environmental assessment with their license application for the Sinclair Hydroelectric Project, as provided for by the Energy Policy Act of 1992.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the applicant prepared environmental assessment and application for major license for the existing Sinclair Hydroelectric Project, located on the Oconee River, Baldwin County, Georgia, and has prepared a Final Environmental

Assessment (FEA) for the project. In the FEA, the Commission's staff has analyzed the potential environmental impacts of the existing project and has concluded that approval of the project, with appropriate mitigation measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Branch, Room 2-A, of the Commission's offices at 888 First Street NE., Washington, DC 20426.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

Notice of Amendment of License

March 20, 1996.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

- a. Type of Application: Amendment of license.
- b. Project No: 2365-011.
- c. Date Filed: March 6, 1996.
- d. Applicant: Madison Paper Industries.
- e. Name of Project: Anson.
- f. Location: On the Kennebec River, in the Towns of Anson and Madison, Somerset County, Maine.
- g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)-825(r).
- h. Applicant Contact: Michael Kurman, Esq., Arent, Fox, Kintner, Plotkin & Kahn, 1050 Connecticut Avenue NW., Washington, DC 20036-5339, Tel: (202) 857-6345.

I. FERC Contact: Mohamad Fayyad, (202) 219-2665.

j. Comment Date: April 22, 1996.

k. Description of Amendment: Licensee proposes to reconfigure the permanent crest of the dam, raising the elevation from 241.67 feet to 242.62 feet (except for a 50-foot section which will be lowered to 242.62 feet) in order to install an inflatable flashboard system. The inflatable flashboard system would replace the existing wooden flashboards and would increase the normal headpond elevation by 1.5 feet. The change in headpond elevation would extend the upstream limit of the impoundment about 2,000 feet further up the Kennebec River and 400 feet up the Carrabassett River, and will increase the impoundment's surface area by about 80 acres.

1. This notice also consists of the following standard paragraphs: B, C1, and D2.

B. Comments, Protests, or Motions to Intervene—Anyone may submit

comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

C1. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "RECOMMENDATIONS FOR TERMS AND CONDITIONS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

D2. Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Lois D. Cashell,

Secretary.
