

burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. BLM will receive and analyze any comments sent in response to this notice and include them with its request for approval from the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

BLM manages and sells timber located on the revested Oregon and California Railroad and the reconveyed Coos Bay Wagon Road Grant Lands pursuant to authority of the Act of August 28, 1937, (50 Stat. 875, 43 U.S.C. 1181e). BLM manages and sells timber located on other lands under the jurisdiction of the BLM pursuant to the Act of July 31, 1947, as amended (61 Stat. 681, 30 U.S.C. 601 *et seq.*). The implementing regulations are found at 43 CFR 5400, Sales of Forest Products; General. The regulations were issued on June 13, 1970 (35 FR 9785), amended on March 8, 1973 (38 FR 6280), September 2, 1982 (47 FR 38696), and last amended on July 17, 1987 (52 FR 26983). A bidder or purchaser for the sale of timber must be (1) an individual who is a citizen of the United States, (2) a partnership composed wholly of such citizens, (3) an unincorporated association composed wholly of such citizens, or (4) a corporation authorized to transact business in the States in which the timber is located (43 CFR 5441.1). BLM collects the purchaser's name and address, tract number, sale name, sale notice date, BLM District, evidence of qualification, bid deposit type and amount, product type or timber species, unit, estimated volume or quantity, unit price and total value using BLM Form 5440-9, Deposit and Bid for Timber.

BLM uses the information to determine that a prospective purchaser has met the regulatory requirements to qualify for bidding and that the bid offered meets the minimum acceptable amount. If BLM did not collect this information, unqualified prospective purchasers might enter into the timber sale contracting process and the bidding process may be compromised.

Based on BLM's experience administering timber sales, the public reporting burden for the information collected is estimated to average one and one quarter hours per response. This includes time to read and understand the instructions, consult the timber sale prospectus, make a determination of the value of the products and fill out the form. The respondents are prospective timber purchasers. The frequency of response

is controlled by the number of advertised sales conducted. The number of responses is estimated to be 500 from experience with the number of bidders qualifying for timber sales over the past 3 years. The estimated total annual burden on respondents is about 625 hours.

Any interested member of the public may request and obtain, without charge, a copy of Form 5440-9 by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

Dated: March 20, 1996.

Dr. Annetta L. Cheek,

Chief, Regulatory Management Team.
