Approval and Promulgation of Implementation Plans Kentucky; Approval of Revisions to the Kentucky State Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is approving revisions to the Kentucky State Implementation Plan (SIP) submitted on June 15, 1983, by the Commonwealth of Kentucky through the Natural Resources and Environmental Protection Cabinet (Cabinet). The revisions pertain to Kentucky regulations 401 KAR 50:025, Classification of counties, and 401 KAR 61:015, Existing indirect heat exchangers. The purpose of these revisions is to reclassify McCracken County from a Class I area to a Class IA area, with respect to sulfur dioxide, and to allow a relaxation of the sulfur dioxide emission limit in McCracken County.

In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA

will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
