

approximately 191 acres which also encompassed the proposed lease area as well as surrounding land. The land had been continuously leased for airport purposes until April 5, 1995, when the lease was relinquished. Following relinquishment of that lease, the Spanish Springs Pilots Association filed an application within the previously leased area, incorporating the existing runway, taxiway, and aircraft tie-down and hangar areas. The segregative effect of the previous lease application remains on the land under consideration in the new airport lease proposal and segregates the subject land from all forms of appropriation. The proposed lease area is described as follows:
