

governments to perform certain actions and also require the private sector to perform certain duties. To the extent that the rules being approved today will impose any mandate upon the State, local, or tribal governments either as the owner or operator of a source or as a regulator, or would impose any mandate upon the private sector, EPA's action will impose no new requirements; such sources are already subject to these requirements under State law. Similarly, EPA's withdrawal of the FIP contingency process will not impose any new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action. EPA has also determined that this action does not include a mandate that may result in estimated costs of \$100 million or more to State, local, or tribal governments in the aggregate or to the private sector.
