

other forms of information technology, e.g., permitting electronic submission of responses.

If you have additional comments, suggestions, or need a copy of the proposed information collection instrument with instructions, or additional information, please contact Mr. Mike L. Medaris, Program Manager, Office of Juvenile Justice and Delinquency Prevention at 202-616-8937. Additionally, comments may be submitted to the Department of Justice, (DOJ), Justice Management Division, Information Management and Security Staff, Attention: Department Clearance Officer, Suite 850, 1001 G Street, NW., Washington, DC 20530. Additionally, comments may be submitted to DOJ via facsimile to 202-514-1534.

The proposed collection is listed below:

- (1) Type of information collection. New collection.
- (2) The title of the form/collection. A survey of law enforcement, prosecutors, social services providers, and non-profit agencies to determine which communities have a multi-agency response to missing and exploited children.
- (3) The agency form number, if any, and the applicable component of the Department sponsoring the collection. Form: None. Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, United States Department of Justice.
- (4) Affected public who will be asked or required to respond, as well as a brief abstract. Primary: State or Local. Other: Non-profit agencies. The information collected will be used policy makers; criminal justice practitioners who respond to missing and exploited children cases; service providers who work with these cases; researchers; and others involved in missing and exploited youth cases.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: 750 respondents to complete a one-time 15 minute mail survey.

(6) An estimate of the total public burden (in hours) associated with the collection: 112 annual burden hours.

If additional information is required contact: Clearance Officer, United States Department of Justice, Information Management and Security Staff, Justice Management Division, Suite 850, Washington Center, 1001 G Street NW., Washington, DC 20530.

Dated: April 10, 1996.  
Robert B. Briggs,  
*Department Clearance Officer, United State  
Department of Justice.*

## DEPARTMENT OF LABOR

### Bureau of Labor Statistics

#### Proposed Collection; Comment Request

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed new collection of the COMP2000: Phase I. A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the addressee section of this notice.

**DATES:** Written comments must be submitted to the office listed in the addressee section below on or before June 17, 1996. BLS is particularly interested in comments which help the agency to:

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**ADDRESSEE:** Send comments to Karin G. Kurz, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 3255, 2 Massachusetts Avenue NE., Washington, DC 20212. Ms. Kurz can be reached on 202-606-7628 (this is not a toll free number).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

This collection comprises Phase I in the implementation of the new COMP2000 program. The COMP2000 survey, when fully in place, will allow the statistical series now generated by three separate BLS compensation programs—Occupational Compensation Surveys Program (OCSP), Employment Cost Index (ECI), and Employee Benefits Survey (EBS)—to be jointly produced. Data of these type are critical for setting Federal white-collar salaries, in determining monetary policy (as a Principal Economic Indicator), and are widely used by compensation administrators and researchers in the private sector. The need to decrease the cost of gathering and processing these statistics while improving their quality, along with reducing the burden on respondents, is driving the creation of the new program.

##### II. Current Actions

The transition to a jointly collected and processed survey will begin with the replacement of the current OCSP wage levels data with those from the COMP2000 program. A new, area-based sample will be used beginning in October 1996 to collect wage levels. A new way of identifying and classifying occupations in establishments will be implemented along with the new sample. Area and national bulletins replacing the OCSP publications will be produced.

Another part of Phase I requires that testing be done to determine how to best update wage rates and also on revised methods for collecting benefit costs and provisions. These activities will be critical in allowing ECI-type indexes and data similar to EBS incidence and provisions information to be generated when Phase II of COMP2000 begins.

*Type of Review:* New collection.  
*Agency:* Bureau of Labor Statistics.  
*Title:* COMP2000: Phase I.  
*Affected Public:* Business or other for-profit; Not-for-profit institutions; and State, Local or Tribal Government.  
*Total Respondents:* 34,282.  
*Frequency:* Annually, with some quarterly testing.

Total Responses: 34,282.  
Average Time Per Response: 76.75  
Minutes.

Estimated Total Burden Hours:  
43,858.

Activity	Total respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden (hours)
Wage Initiations .....	20,003	Annually .....	20,003	82	27,337
Initiation updates .....	212	Annually .....	212	20	71
Wage updates .....	1,785	Some annually, some quarterly .....	1,785	20	595
Benefit tests .....	756	Annually .....	756	262	3,301
FY96 OCSP surveys .....	325	Annually .....	325	120	650
AK-HI-SJ survey .....	901	Annually .....	901	82	1,231
Service Contract Act survey .....	6,200	Annually .....	6,200	82	8,473
Quality Assurance .....	4,100	Annually .....	4,100	32	2,200
Totals .....			34,282		43,858

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, D.C., this 10th day of April, 1996.

Peter T. Spolarich,

Chief, Division of Management Systems,  
Bureau of Labor Statistics.

## NATIONAL SCIENCE FOUNDATION

### Special Emphasis Panel in Graduate Education; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Graduate Education (#57).

Date and Time: May 1-2, 1996; 8:30 a.m. to 5:00 p.m.

Place: National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

Type of Meeting: Closed.

Contact Person: Carolyn Lyons Piper, Assistant Program Director, 4201 Wilson Boulevard, Room 907, Arlington, VA 22230; Telephone: (703) 306-1696.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to the NATO Postdoctoral Fellowship Program (NATO).

Agenda: Review and evaluate NATO proposals.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information

concerning individuals associated with the proposals. These matters are within exemptions 4 and 6 of 5 U.S.C. 552b.(c) (4) and (6) of the Government in the Sunshine Act.

Dated: April 10, 1996.

M. Rebecca Winkler,

Committee Management Officer.

BILLING CODE 7555-01-M

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-413 and 50-414]

### Duke Power Company, et al.; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License Nos. NPF-35 and NPF-52 issued to the Duke Power Company (the licensee) for operation of the Catawba Nuclear Station, Units 1 and 2, located in York County, South Carolina.

The proposed amendments would change the containment hydrogen mitigation system Technical Specifications (TS) to provide that, if neither the Train A or Train B igniter is operable in any one containment region, then there is an allowance of 7 days to restore one hydrogen ignitor to OPERABLE status, or be in Hot Shutdown within the next 6 hours. This would be consistent with the guidance of the Standard TS for Westinghouse plants, NUREG-1431. The current TS does not provide for inoperable ignitors on the two redundant trains being in the same containment region. Other administrative and editorial changes

were proposed to TS 3/4.6.4.3 to provide consistency of format and text with the Standard TS (NUREG-1431). Associated changes were also proposed for the Bases. A recent performance of the 92-day ignitor surveillance test determined that one ignitor in Train B did not energize and had failed. The area of the containment covered by this ignitor cannot be accessed during power operation for repairs due to the radiation levels in this area.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

#### Criterion 1

The requested amendments will not involve a significant increase in the probability or consequences of an accident previously evaluated. No impact upon accident probabilities will be created, since the HIS [Hydrogen Ignition System] System is not an accident initiating system. In addition, allowance for a single location in the containment to be without an operable ignitor, is afforded by the low probability of the occurrence of a degraded core event that would generate hydrogen in amounts
