SUPPLEMENTARY INFORMATION:

I. Background on the Ohio Plan

On August 10, 1982, the Secretary of the Interior approved the Ohio plan. Background information on the Ohio plan, including the Secretary’s findings, the disposition of comments, and the conditions of approval can be found in the April 15, 1994, Federal Register (59 FR 17930). Subsequent actions concerning the conditions of approval and program amendments can be found at 30 CFR 935.25.

II. Description of the Proposed Amendment

By letter dated March 19, 1996, (Administrative Record No. OH–2163) Ohio submitted a proposed amendment to its program pursuant to SMCRA at its own initiative. The provisions of the Ohio plan that it proposes to amend are: acid mine drainage set-aside program, water quality improvement, project eligibility, and remining incentives.

Specifically, Ohio proposes the following changes. At section 4.1, subsection G is added to (1) provide for the reclamation of areas causing acid mine drainage (AMD) such that: AMD problems are eliminated as a component of a high priority reclamation project; AMD areas causing a “general welfare” impact to the public will be eligible for abatement; and AMD areas impacting watersheds will be abated in accordance with AMD set-aside criteria; and (2) encourage the remining of areas causing AMD within certain areas through the funding of AMD remediation projects and studies necessary to authorize mining activities on certain previously mined areas.

At section 4.5, the requirement that research and demonstration projects be submitted to OSM independent of work plan submissions is deleted. At section 4.5.3, the project selection process is revised to include AMD projects under certain conditions, such as the AMD set-aside, AMD associated with other high priority projects, AMD associated with general welfare, and AMD associated with remining operations.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Ohio plan.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter’s recommendations. Comments received after the time indicated under DATES or at locations other than the Appalachian Regional Coordinating Center will not necessarily be considered in the final rulemaking or included in the Administrative Record.

The location and time of the hearing will be arranged with those persons requesting the hearing. If no one requests an opportunity to speak at the...
Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will begin at 1:30 p.m. Eastern Standard Time (EST) and will be held at the U.S. Coast Guard Headquarters, Second Street SW., Washington, DC 20593–0001, or may be delivered to room 3406 at the same address between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays. IV. Procedural Determinations

Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State and Tribal abandoned mine land reclamation plans and revisions since each plan is drafted and promulgated by a specific State or Tribe, not by OSM. Decisions on proposed abandoned mine land reclamation plans submitted by a State or Tribe must be based solely on a determination of whether the submittal is consistent with Title IV of SMCRA (30 U.S.C. 1231–1243) and whether the other requirements of 30 CFR Parts 884 and 888 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon the Regulatory Flexibility Act.

SUMMARY:

In keeping with the National Performance Review and the President's Regulatory Reinvention Initiative, the U.S. Coast Guard examined its program for permitting regattas and other marine events. This proposal would more precisely identify which events require a permit, which would require only notice to the Coast Guard, and which events require neither. These changes are proposed to maintain safety of life during events, while dramatically reducing the burden imposed on the public.

DATES:
