NUCLEAR REGULATORY COMMISSION

[Docket No. 030-05712, License No. 34-6398-01EA 95-227]

The Duriron Company, Inc.) Dayton, Ohio; Order Imposing Civil Monetary Penalty

I

The Duriron Company, Inc. (Licensee) is the holder of Materials License No. 34-06398-01 which was first issued by the Nuclear Regulatory Commission (NRC or Commission) on May 17, 1969. The license was last renewed on November 15, 1994, and is scheduled to expire on November 30, 1999. The license authorizes the Licensee to possess cobalt-60 and iridium-192, in sealed sources, to perform industrial radiography at the Licensee's facility at 450 North Findlay Street, Dayton, Ohio, in accordance with the conditions specified therein.

II

An inspection of the Licensee's activities was conducted from September 11 to September 29, 1995. The results of this inspection indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated February 5, 1996. The Notice states the nature of the violation, the provision of the NRC's requirements that the Licensee had violated, and the amount of the civil penalty proposed for the violation.

The Licensee responded to the Notice in a letter dated February 19, 1996, and admitted the violation. In its response, the Licensee contested the characterization of the violation as being "willful" or representing "careless disregard," and requested that the severity level of the violation be reduced. The Licensee also requested that the civil penalty be partially or fully mitigated.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined, as set forth in the
