

1990 (Pub. L. 101-508) further amended the Privacy Act regarding protections for such individuals. The Privacy Act, as amended, regulates the use of computer matching by Federal agencies when records in a system of records are matched with other Federal, State, or local government records.

Among other things, it requires Federal agencies involved in computer matching programs to:

- (1) Negotiate written agreements with the other agency or agencies participating in the matching programs;
- (2) Obtain the Data Integrity Boards' approval of the match agreements;
- (3) Furnish detailed reports about matching programs to Congress and OMB;
- (4) Notify applicants and beneficiaries that their records are subject to matching; and
- (5) Verify match findings before reducing, suspending, terminating or denying an individual's benefits or payments.

#### B. SSA Computer Matches Subject to the Privacy Act

We have taken action to ensure that all of SSA's computer matching programs comply with the requirements of the Privacy Act, as amended.

Dated: April 16, 1996.

Shirley S. Chater,

*Commissioner of Social Security.*

Notice of Computer Matching Program, Social Security Administration (SSA) with the Health Care Financing Administration (HCFA)

#### A. Participating Agencies

SSA and HCFA.

#### B. Purpose of the Matching Program

The purpose of this matching program is to establish conditions under which HCFA agrees to the disclosure of Medicaid facility admission and billing data. SSA will use the match results to verify the eligibility of, and the correct amount of benefits payable to, individuals under the supplemental security income (SSI) program, which provides payments under title XVI of the Social Security Act (the Act) to aged, blind and disabled recipients with income and resources below levels established by law and regulations, and federally administered supplementary payments under Section 1616 of the Act, including payments under section 212 of Pub. L. 93-66, 87 Stat. 152. Admission to a Medicaid facility would, under certain circumstances, subject the amount of SSI which an individual could receive for any month throughout

which the individual is in such a facility to specific statutory limitations.

#### C. Authority for Conducting the Matching Program

Section 1611(e) (1) (B) and 1631 (f) of the Act (42 U.S.C. 1382(e) (1) (B) and 1383 (f)).

#### D. Categories of Records and Individuals Covered by the Match

SSA will provide HCFA with identifying information with respect to applicants for and recipients of SSI benefits extracted from SSA's Supplemental Security Income Record to identify individuals potentially subject to benefit reductions or termination of payment eligibility under the statutory provisions listed above. HCFA will match the SSNs, names, date of birth, sex and race on this finder file with its Medicaid Statistical Information System File and provide a reply file of SSNs common to both files. HCFA will also provide SSA with the Medicaid facility name, address and telephone number for SSN's common to both files.

#### E. Inclusive Dates of the Match

The matching program shall become effective no sooner than 40 days after a copy of the agreement, as approved by the Data Integrity Boards of both agencies, is sent to Congress and the Office of Management and Budget (OMB) (or later if OMB objects to some or all of the agreement) or 30 days after publication of this notice in the Federal Register, whichever is later. The matching program will continue for 18 months from the effective date and may be extended for an additional 12 months thereafter, if certain conditions are met.

## DEPARTMENT OF STATE

[Public Notice No. 2372]

### United States International Telecommunications Advisory Committee, Radiocommunications Sector, Study Group 8—Mobile Services Meeting Notice

The Department of State announces that the United States International Telecommunications Advisory Committee (ITAC), Radiocommunication Sector Study Group 8—Mobile Services will meet on 16 May 1996 at 10 AM to 1 PM, in room 3524 at the Department of State, 2201 C Street, N.W., Washington, DC 20520.

Study Group 8 studies and develops recommendations concerning technical

and operating characteristics of mobile, radiodetermination, amateur and related satellite services.

This May meeting will continue preparations for the October 28, 1996 international meeting of Study Group 8. It will also review activities concerning the Inter-American Telecommunication Commission Permanent Consultative Committee III—Radiocommunications, and begin preparations for the August 19-23 meeting of PCC.III.

A meeting of U.S. Working Party 8E dealing with the Amateur Radio service will be convened by Mr. Paul Rinaldo beginning at 1:30 P.M. in room 3524.

Members of the General Public may attend these meetings and join in the discussions, subject to the instructions of the Chairman, John T. Gilsenan.

Note: If you wish to attend please send a fax to 202-647-7407 not later than 24 hours before the scheduled meeting. On this fax, please include subject meeting, your name, social security number, and date of birth. One of the following valid photo ID's will be required for admittance: U.S. driver's license with your picture on it, U.S. passport, U.S. Government ID (company ID's are no longer accepted by Diplomatic Security). Enter from the "C" Street Main Lobby.

Dated: April 18, 1996.

Warren G. Richards,

*Chairman, U.S. ITAC for ITU-Radiocommunication Sector.*

## TENNESSEE VALLEY AUTHORITY

### Environmental Impact Statement: Proposed Conversion of the Tennessee Valley Authority Bellefonte Nuclear Power Plant

**AGENCY:** Tennessee Valley Authority.

**ACTION:** Notice of intent.

**SUMMARY:** The Tennessee Valley Authority (TVA) will prepare an environmental impact statement (EIS) for the proposed conversion and operation of the unfinished Bellefonte Nuclear Power Plant as a fossil-fueled power plant. Bellefonte Nuclear Power Plant is located near the cities of Hollywood and Scottsboro in northeast Alabama. The proposed action would undertake conversion, modification and addition of equipment; the construction of new facilities; and the subsequent operation of the Bellefonte facility as a fossil-fueled power plant with an approximate electric capacity between 450 megawatts (MW) and 3,000 MW, dependent on the conversion alternative selected. Fossil fuels to be considered are natural gas, coal, and petroleum
