BILLING CODE 6717-01-M

[Docket No. RP96-213-000]

High Island Offshore System; Notice of Proposed Changes in FERC Gas Tariff

April 25, 1996.

Take notice that on April 22, 1996, High Island Offshore System (HIOS) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets, to become effective May 1, 1996:

Second Revised Sheet No. 1
Sixth Revised Sheet No. 9
Second Revised Sheet No. 69
Second Revised Sheet No. 69A
Second Revised Sheet No. 70

HIOS asserts that the purpose of this filing is to comply with the Commission's October 12, 1993, letter order in the captioned proceeding, High Island Offshore System, 65 FERC ¶ 61,053 (1993), that approved HIOS' line pack settlement. In addition, take notice that HIOS also filed in compliance with the Commission letter order, Final Reports of line pack surcharge collections and payments which reflect the completion of the line pack cost recovery and disbursement process as of April 17, 1996.

HIOS states that the purpose of these filings is to reflect the completion of the line pack recovery and disbursement process contemplated by its approved line pack settlement, and the removal of the line pack commodity surcharge provisions that were contained in Section 15 of the General Terms and Conditions and related provisions of HIOS' tariff in light of such completed process.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules of Practice and Procedure. All such motion or protests must be filed as provided in Section

154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,
Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. CP96-227-001]

Northwest Pipeline Corporation; Notice of Petition To Amend

April 25, 1996.

Take notice that on April 18, 1996, Northwest Pipeline Corporation (Northwest), P.O. Box 58900, Salt Lake City, Utah, 84158-0900, filed in Docket No. CP96-227-001 a request for approval to amend its authorization issued in Docket No. CP96-227-000 to substitute a rotary meter for the authorized turbine meter at the Finley Meter Station, in Benton County, Washington, under the blanket certificate issued in Docket No. CP82-479-000, pursuant to Section 7(c) of the Natural Gas Act (NGA), all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northwest originally proposed to modify the Finley Station by removing the existing 2-inch positive displacement meter and the existing 3-inch turbine meter and installing a single 2-inch turbine meter as a replacement, which Northwest indicates would decrease the maximum daily delivery capacity of the meter station from 1,597 Dth per day to approximately 1,310 Dth per day at 300 psig.

Northwest now proposes to install a single 2-inch rotary meter as a replacement instead of the single 2-inch meter as originally proposed. Northwest indicates that the reason for this change is the mechanical problems it is experiencing with 2-inch turbine meters. It is further indicated that as a result of this change, the maximum design capacity of the meter station will decrease from 1,597 Dth per day to approximately 1,281 Dth per day at 300 psig.

Northwest further states that some minor surface disturbing activities will occur within the existing station site, but following construction all disturbed

areas will be restored to their original conditions. Northwest had previously stated in its original application that the proposed facility replacements would not involve any surface disturbing activities. It is indicated that all other pertinent information, including estimated costs of the project, remain accurate as previously filed.

Any person or the Commission's Staff may, within 45 days of the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214), a motion to intervene and pursuant to Section 157.205 of the regulations under the Natural Gas Act (18 CFR 157.205), a protest to the request. If no protest is filed within the time allowed therefor, the proposed activities shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Linwood A. Watson, Jr.,
Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. CP96-340-000]

Tennessee Gas Pipeline Company; Notice of Request Under Blanket Authorization

April 25, 1996.

Take notice that on April 22, 1996, Tennessee Gas Pipeline Company (Tennessee), P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP96-340-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.212) for authorization to establish a new delivery point to accommodate deliveries of gas transported on an interruptible basis for Ohio Intrastate Gas Transmission Company (Ohio Intrastate), in Carroll County, Ohio, under Tennessee's blanket certificate issued in Docket No. CP82-413-000, pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Tennessee proposes to construct and operate 2 8-inch hot taps and electronic gas measurement equipment in order to deliver up to 50 MMcf of natural gas per day to Ohio Intrastate. Ohio Intrastate will install 2 6-inch turbine meters and
