The Secretary of the Interior is responsible for the collection of royalties from lessees who produce minerals from leased Federal and Indian lands, and the Secretary is authorized to manage lands, to collect royalties due, and to distribute royalties collected. MMS performs the royalty management functions assigned to the Secretary and has implemented the Production Accounting and Auditing System (PAAS) to improve the management of minerals produced from Federal and Indian land.

PAAS is an integrated computer system based on production processing reports submitted by lease operators and is designed to track minerals produced from Federal and Indian lands from the point of production to the point of disposition, or royalty determination, and/or point of sale. PAAS data is compared to data in the MMS Auditing and Financial System (AFS), which provides payment and sales volumes and values as reported by payors. The comparison enables MMS to verify that proper royalties are being received for the minerals produced.

The Secretary is authorized to prescribe proper rules and regulations and to do any and all things necessary to accomplish the purpose of applicable laws. Citations include: 30 U.S.C. 189, (public lands), 30 U.S.C. 359, (acquired lands) and 25 U.S.C. 396d, (Indian lands). Current regulations applicable to this information collection are at 30 CFR 212.200 and 30 CFR 216 et seq. Regulations of the Bureau of Indian Affairs (BIA), 25 CFR 211 et seq., provide by cross-reference that the pertinent provisions of 30 CFR Chapter II, Parts 200-290 apply to Indian leases.

Lessees of Federal and Indian leases agree to provide information of all operations conducted on a lease and the volume and quality of all production from the lease at such times and in such form as the Secretary may prescribe. Rules require lessees to provide accurate, complete, and timely reports for all minerals produced, in the manner and form prescribed by MMS (30 CFR 216.21).
