Approval And Promulgation Of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; Michigan; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking; extension of the comment period.

SUMMARY: The EPA is extending the comment period for a proposed action published on April 2, 1996 (61 FR 14522) pertaining to the Grand Rapids moderate ozone nonattainment area. On April 2, 1996, the EPA proposed approval of Michigan's request to redesignate the Grand Rapids moderate ozone nonattainment area to attainment for ozone and associated section 175A maintenance plan revision to the Michigan State Implementation Plan (SIP) contingent on the State's submittal

of a revision to the maintenance plan to incorporate 3 additional control programs to the list of contingency measures. On April 19, 1996, the EPA received a request for an extension of the public comment period based on the fact that the revision to the section 175A maintenance plan SIP was not available in the EPA's docket until April 15, 1996. Since the revision to the section 175A maintenance plan SIP revision was not available for approximately the first two weeks of the public comment period, the EPA is extending the comment period only on the aspects of the redesignation and corresponding section 175A maintenance plan SIP revision components pertaining to the State's revision to the maintenance plan submitted on April 15, 1996 for 14 days. The public comment period pertaining to the other components of the redesignation request and maintenance plan SIP revision are not extended and comments on these components are due to EPA by May 2, 1996.

DATES: Comments on the aspects of the April 2, 1996, (61 FR 14522) proposed action on the redesignation and corresponding section 175A maintenance plan pertaining to the State's April 15, 1996 SIP revision must be received in writing by May 16, 1996.

Capsaicin, and Ammonium Salts of Fatty Acids; Proposed Tolerance Actions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: For the pesticides subject to the actions listed in this proposed rule, EPA has completed the reregistration process and issued a Reregistration Eligibility Decision (RED). In the reregistration process, all information to support a pesticide's continued registration is reviewed for adequacy and, when needed, supplemented with new scientific studies. Based on the RED tolerance assessments for the pesticide chemicals subject to this proposed rule, EPA is proposing to exempt from the requirement of a tolerance, all registered food uses for the pesticides, capsaicin and ammonium salts of fatty acids.
