DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 3021-073]

Allegheny Hydro No. 8 & 9 Limited Partnership and Connecticut National Bank; Notice of Availability of Environmental Assessment

April 26, 1996.

An environmental assessment (EA) is available for public review. The EA reviews an application to amend the license for the Allegheny River Lock and Dams No. 8 & 9 Hydroelectric Project. The license would be amended to allow the installation of 15-inch flashboards at Lock and Dam 9 from about May 1 through October 31, 1996. Flashboards would raise the Lock and Dam 9 navigation pool to benefit recreational boating. The EA finds that approving the application to install 15-inch flashboards from about May 1 through October 31, 1996 would not constitute a major federal action significantly affecting the quality of the human environment. The Allegheny River Lock and Dams 8 & 9 Hydroelectric Project is located on the Allegheny River at river mile 62.2 in Armstrong County, Pennsylvania.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA can be obtained by calling the Commission's Public Reference Room at (202) 208-1371.
