

has not imposed similar limitations on the securities brokerage activities of bank holding companies. See 12 CFR 225.25(b)(15). BNY also contends that riskless principal transactions do not involve the potential conflicts of interests, unsound banking practices and other adverse effects that are sought to be addressed by the Section 20 Firewalls. Furthermore, BNY asserts that compliance with the section 20 Firewalls would place a bank holding company engaged in riskless principal transactions at a competitive disadvantage to other broker-dealers engaged in such activity.

Company, however, would conduct its riskless principal activities subject to the other conditions established by the Board in previous orders, including those conditions that are designed to assure that a bank holding company's riskless principal activities do not constitute the underwriting, public sale, or distribution of securities for purposes of the Glass-Steagall Act. See *Bankers Trust; J.P. Morgan; BankAmerica Corporation*, 79 Fed. Res. Bull. 1163 (1993). For example, Company would engage in riskless principal transactions only in the secondary market and would not engage in riskless principal transactions for any security carried in its inventory. Company also would not act as riskless principal with respect to registered investment company securities or the securities of investment companies advised by BNY or any of its affiliates.

In order to approve the proposal, the Board must determine that the proposed activities to be conducted by BNY "can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." 12 U.S.C. 1843(c)(8). BNY believes that the proposal would produce public benefits that outweigh any potential adverse effects. In particular, BNY maintains that the proposal would increase competition for the proposed services.

In publishing the proposal for comment, the Board does not take a position on issues raised by the proposal. Notice of the proposal is published solely to seek the views of interested persons on the issues presented by the application and does not represent a determination by the Board that the proposal meets, or is likely to meet, the standards of the BHC Act. Any comments or requests for hearing should be submitted in writing

and received by William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 28, 1996. Any request for a hearing on this application must, as required by § 262.3(e) of the Board's Rules of Procedure (12 CFR 262.3(e)), be accompanied by a statement of the reasons why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

This application may be inspected at the offices of the Board of Governors or the Federal Reserve Bank of New York.
