Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**SUPPLEMENTARY INFORMATION:**

History

On March 11, 1996, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by amending the Class E airspace area at Jackson, CA (61 FR 9657). This action will provide adequate controlled airspace for Instrument Flight Rules (IFR) operations at Westover Field Amador County, Jackson, CA.

Interested parties were invited to participate in this rulemaking proceedings by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in this Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) amends the Class E airspace area at Jackson, CA. The development of a GPS SIAP at Westover Field Amador County has made this action necessary. The intended effect of this action is to provide adequate Class E airspace for aircraft executing the GPS RWY 1 SIAP at Westover Field Amador County, Jackson, CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 10034; February 26, 1979); and (3)

does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
