DEPARTMENT OF DEFENSE

Department of the Army

Draft Environmental Impact Statement/ Environmental Impact Report (DEIS/ DEIR) for Proposed Combined-Forces Training Activities, New Equipment Utilization, and Range Modernization Program at Camp Roberts Army National Guard Training Site, CA

AGENCY: Department of the Army, DOD.

ACTION: Notice of Availability.

SUMMARY: The purpose of this project is to maximize training opportunities for military units that use Camp Roberts. Military units need to be able to maintain a high level of training and state of readiness to support national defense and state missions in times of natural disaster, civil unrest, and other emergencies. Adequate training opportunities, with up-to-date equipment, must be available to allow them to train for their assigned missions.

This DEIS/DEIR analyzes the proposed action, two alternatives, and the no-action alternative. The proposed action consists of three components: combined-forces training with two brigades of personnel and associated equipment, new equipment utilization, and a range modernization program.

The combined-forces training component would consist of increasing the intensity of training from a typical maximum of approximately 5,300 soldiers to approximately 10,600 soldiers during an annual training period at Camp Roberts. Four new types of equipment would be introduced at Camp Roberts as part of the proposed action: the M1 Abrams series of tanks would replace the M60 series tanks, Bradley Fighting Vehicles would replace the M113 series armored personnel carriers, the Multiple-Launch Rocket System would replace all but two of the M110 8-inch howitzers, and the AH-64 series Apache helicopters would replace the Cobra helicopters. The range modernization program component would be composed of both upgrading existing ranges and constructing new ranges.

In addition to the proposed action, the DEIS/DEIR evaluates three other alternatives: No-Action, New Equipment Utilization and Range Modernization Program, and the Peak Training Use of Camp Roberts/Fort Hunter Liggett.

There will be a 45-day public review and comment period for the DEIS/DEIR. A public meeting will be held on the DEIS/DEIR not less than 15 days after the Notice of Availability is published.

The meetings will be held in San Luis Obispo and Paso Robles. Several resources tables will be staffed so that citizens will have the opportunity to voice their opinions regarding the DEIS/DEIR and have their questions answered. After all of the comments have been compiled and reviewed, responses to all relevant environmental issues that have been raised will be prepared. These responses to comments and/or any new information will be incorporated into the DEIS/DEIR to constitute the Final EIS/EIR.

ADDRESSES: Copies of the DEIS/DEIR will be mailed to individuals who participated in the public scoping process. Copies will also be sent to federal, state, regional, and local agencies; interested organizations and agencies; and public libraries. Individuals not currently on the mailing list may obtain a copy at request.

FOR FURTHER INFORMATION CONTACT: LTC William R. Parsonage, EIS/EIR Project Officer, Camp Roberts Army National Guard Training Site, Camp Roberts, CA, 93451-5000, 805/238-8207.

Dated: April 29, 1996.

Raymond J. Fatz,

Acting Deputy Assistant Secretary of the Army (Environment, Safety, and Occupational Health) OASA (IL&E).
