**Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review**

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to the OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission, new, revision, or extension: Revision.

2. The title of the information collection: 10 CFR part 26, "Fitness-for-Duty Programs."

3. The form number if applicable: Not applicable.

4. How often the collection is required: Once per year and on occasion.

5. Who will be required or asked to report: All licensees authorized to construct or operate a nuclear power reactor and all licensees authorized to possess, use, or transport unirradiated Category 1 nuclear material.

6. An estimate of the number of responses: A reduction of 74 responses (semi-annual to annual report).

7. The estimated number of annual respondents: 74.

8. An estimate of the total number of hours needed annually to complete the requirement or request: 12,582 hours of burden reduction (2,664 hours of reporting burden and 9,918 hours of recordkeeping burden).

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Applicable.

10. Abstract: 10 CFR Part 26, "Fitness-for-Duty Program," requires licensees to

implement fitness-for-duty programs to assure that personnel are not under the influence of any substance or mentally or physically impaired, to retain certain records associated with the management or these programs, and to provide reports concerning the performance of the programs and certain significant events. Compliance with these requirements is mandatory for licensees subject to 10 CFR Part 26.

A proposed revision to 10 CFR Part 26 would modify the information collection requirements to, among other less significant changes, (1) Extend coverage to certain classes of fitness-for-duty programs; (2) require licensees to revise their written policy and procedures to incorporate minor administrative procedures, e.g., Medical Review Officer medical review procedures and changes to various technical guidelines contained in Appendix A of 10 CFR Part 26; (3) require all licensees to obtain information in addition to that currently provided in written form from individuals which would indicate whether the individual has a history of substance abuse; and (4) add fitness-for-duty personnel as a third class of people whose negative acts would be reported.

Submit by June 5, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
