Questions about the content of the proposal may be part of a commenter's oral presentation. However, neither the presiding officer nor any other

representative of the Department will respond to the comments at the hearing, except to clarify or explain the proposed rule.

APHIS intends to schedule additional hearings on the proposed rule at various locations around the country over the next several months. We will give notice of these additional hearings in the Federal Register.

## SMALL BUSINESS ADMINISTRATION

### 13 CFR Part 121

#### Small Business Size Standards; Waiver of the Nonmanufacturer Rule

**AGENCY:** Small Business Administration.

**ACTION:** Notice of intent to waive the nonmanufacturer rule for purified terephthalic acid ground (PTAG) and un-ground (PTAU).

**SUMMARY:** The Small Business Administration (SBA) is considering granting a waiver of the Nonmanufacturer Rule for PTAG and PTAU. The basis for a waiver of the Nonmanufacturer Rule for these products is that there are no small business manufacturers or processors available to supply these products to the Federal Government. The effect of a waiver would be to allow an otherwise qualified Nonmanufacturer to supply other than the product of a domestic small business manufacturer or processor on a Federal contract set aside for small businesses or awarded through the SBA 8(a) Program. The purpose of this notice is to solicit comments and potential source information from interested parties.

**DATES:** Comments and sources must be submitted on or before May 29, 1996.

**ADDRESSES:** David Wm. Loines, Procurement Analyst, U.S. Small Business Administration, 409 3rd Street SW., Washington, DC 20416, Tel:(202) 205-6475.

**SUPPLEMENTARY INFORMATION:** Public law 100-656, enacted on November 15, 1988, incorporated into the Small Business Act the previously existing regulation that recipients of Federal contracts set-aside for small businesses or the SBA 8(a) Program procurement must provide the product of a small business manufacturer or processor, if

the recipient is other than the actual manufacturer or processor. This requirement is commonly referred to as the Nonmanufacturer Rule. The SBA regulations imposing this requirement are found at 13 CFR 121.906(b) and 121.1106(b). Section 303(h) of the law provides for waiver of this requirement by SBA for any "class of products" for which there are no small business manufacturers or processors in the Federal market. To be considered available to participate in the Federal market on these classes of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal Government within the last 24 months. The SBA defines "class of products" based on two coding systems. The first is the Office of Management and Budget Standard Industrial Classification Manual. The second is the Product and Service Code established by the Federal Procurement Data System.

The Small Business Administration is currently processing a request for a waiver of the Nonmanufacturer Rule for Purified Terephthalic Acid Ground (PTAG) and Un-Ground (PTAU) (SIC 2869, PSC 6810) and invites the public to comment or provide information on potential small business manufacturers for this product.

In an effort to identify potential small business manufacturers, the SBA has searched the Procurement Automated Source System (PASS) and Thomas Register, and the SBA will publish a notice in the Commerce Business Daily. The public is invited to comment or provide source information to SBA on the proposed waiver of the Nonmanufacturer Rule for this class of products.

Dated: April 29, 1996.

#### Airworthiness Directives; Pratt & Whitney JT9D Series Turbofan Engines

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This document proposes the adoption of a new airworthiness directive (AD) that is applicable to Pratt & Whitney JT9D series turbofan engines. This proposal would require initial and repetitive eddy current inspections (ECI) of 14th and 15th stage high pressure compressor (HPC) disks for cracks, and removal of cracked disks and replacement with serviceable parts. This proposal is prompted by a report of a 14th stage HPC disk bore found cracked during a shop inspection. The actions specified by the proposed AD are intended to prevent 14th and 15th stage HPC disk rupture, which could result in an uncontained engine failure and damage to the aircraft.
