Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision, Santa Barbara County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the California State Implementation Plan (SIP) which concerns the control of volatile organic compound (VOC) emissions, oxides of nitrogen (NO_x), and oxides of sulfur (SO_x) from flare and thermal oxidizers.

The intended effect of proposing approval of this rule is to regulate emissions of VOC, NO_x, and SO_x in accordance with the goals of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this Federal Register, the EPA is approving the state's SIP revision as a

direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by June 6, 1996.

ADDRESSES: Written comments on this action should be addressed to: Daniel A. Meer, Rulemaking Section (A-5-3), Air and Toxics Division, U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105-3901.

Copies of the rule and EPA's evaluation report of the rule are available for public inspection at EPA's Region 9 office during normal business hours. Copies of the submitted rule are also available for inspection at the following locations:

Santa Barbara County Air Pollution Control District, 26 Castilian Drive, B-23, Goleta, CA 93117

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 2020 "L" Street, Sacramento, CA 95814.

Approval and Promulgation of Implementation Plan; Illinois

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: On October 21, 1993, the Illinois Environmental Protection Agency (IEPA) submitted to the USEPA volatile organic compound (VOC) rules that were intended to satisfy part of the requirements of section 182(b)(2) of the Clean Air Act (Act) amendments of 1990. Specifically, these rules provide control requirements for certain major sources not covered by a Control Technique Guideline (CTG) document. These non-CTG VOC rules apply to sources in the East St. Louis ozone nonattainment area which emit (at maximum capacity) 100 tons of VOC per year. These rules therefore provide an environmental benefit due to the imposition of control requirements on sources emitting greater than 100 tons of VOC per year that belong to certain source categories. The USEPA proposes to approve these VOC rules for major non-CTG sources. This action lists the State implementation plan revision that USEPA is proposing to approve and provides an opportunity for public comment. A rationale for approving this request is presented in the final rules section of this Federal Register, where USEPA is approving the revision request as a direct final rule without prior proposal because USEPA views this as a noncontroversial revision and anticipates no adverse comments. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments the direct final rule will be withdrawn. Any parties interested in commenting on this document should do so at this time. The final rule on this proposed action will address all comments received.

DATES: Comments on this document must be received by June 6, 1996.

ADDRESSES: Written comments should be addressed to: J. Elmer Bortzer, Chief, Regulatory Development Section, Air Programs Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Comments should be strictly limited to the subject matter of this proposal.
