

soils. For groundwater, the number is below the lower end of U.S. EPA's acceptable risk range.

Given the above, the no action alternative was chosen since it has been demonstrated that the contamination found could not be attributed solely to CLL and the level of contamination attributable to the Site results in negligible risk. U.S. EPA issued its finding in the document *Remedial Investigation Report* dated May 1995. U.S. EPA executed a Record of Decision requiring no action on September 29, 1995. The State concurred with this ROD on October 13, 1995.

U.S. EPA, with concurrence from the State of Indiana, has determined that all appropriate Fund-financed responses under CERCLA at the Carter Lee Lumber Company Superfund Site have been completed, and no further CERCLA response is appropriate in order to provide protection of human health and the environment. Therefore, U.S. EPA proposes to delete the site from the NPL.

The ASMFC advised NMFS that it needs additional time to consider the proposal to withdraw the FMP for the Bluefish Fishery and that it can make recommendations and provide meaningful comment only after its Bluefish Management Board has met during the ASMFC's Spring 1996 meeting of May 28-31, 1996. Therefore, NMFS is extending the public comment period for the proposed rule to June 7, 1996.
