FOR FURTHER INFORMATION CONTACT: Tijuana Southall at (202) 606-5000, ext. 136.

SUPPLEMENTARY INFORMATION: The Learn and Serve America: K-12 program was created to help fund school-based and community-based service learning programs. The Learn and Serve America: K-12 program aims to increase the opportunities of school-age youth and allow them to develop their own capabilities through service learning. In fiscal year 1996, a total of \$32,250,000 will be available through different grant cycles to support new and continuing Learn and Serve America: K-12 programs. Grantees that currently receive funding through the Learn and Serve America: K-12 program, including State Education Agencies (SEAs), Local Education Agencies (LEAs), State Commissions, Grantmaking Entities, and Indian Tribes and U.S. Territories, are eligible to apply for renewal.

This notice announces the availability of funds for new grants (as opposed to requests for renewal of existing grants) for Indian Tribes and U.S. Territories for School-Based programs. Approximately \$1.5 million is available on a competitive basis to support new grants for Indian Tribes and U.S. Territories. These grants may be used for capacity-building activities, and for implementing, operating, or expanding service-learning programs or adult volunteer programs. Applicants should use the 1996 Indian Tribes and U.S. Territories: School-Based Programs Application.

Authority: 42 U.S.C. 12501 et seq.

Dated: May 3, 1996

Department of the Air Force

Notice of Intent To Prepare Environmental Assessment for the Realignment, McChord AFB, WA

The United States Air Force (USAF) will prepare an Environmental Assessment (EA) with the potential for an Environmental Impact Statement to assess the potential environmental impacts of the basing 48 C-17 aircraft to McChord AFB, south of Tacoma, Washington. The beddown of the C-17 aircraft at McChord is necessary to best support the Nation's military strategy, and airlift needs. The proposed action would fulfill wartime requirements and peacetime training needs while providing a replacement for the retiring C-141 aircraft.

The proposed realignment would locate C-17 aircraft, associated personnel, units, and equipment to McChord and entails approximately \$120M in construction on the base. Under the No Action alternative, no aircraft would be based at McChord since the C-141 aircraft are being retired as part of a separate action.

The Air Force will conduct a public meeting to ensure that the analysis addresses the appropriate scope of issues and depth of analysis for the proposed action. Public comments will be considered in the preparation of the EA. Notice of the date, time, and location of the meeting will be made available to public officials, the community, and the news media at a later date. Written comments on the scope of alternatives and impacts will also be accepted and considered.

To ensure that the Air Force will have sufficient time to consider all appropriate comments, please forward comments to the address listed below by June 7, 1996. The Air Force will accept appropriate input any time throughout this process. If the Air Force were to decide to propose an EIS, this process may be substituted for the scoping process that would normally precede an EIS.

Please direct any written comments of requests for further information concerning this action to: Mr. Michael Grenko, 62 SPTG/CEV, 555 A. Street, McChord AFB, WA 98438-1325, (206) 984-3913.

Patsy J. Conner,

Air Force Federal Register Liaison Officer.

Notice of Intent To Prepare an Environmental Impact Statement for Expansion of German Air Force Aircraft Operations, Holloman AFB, NM

The United States Air Force will prepare an Environmental Impact Statement (EIS) to analyze the potential environmental impacts of operating additional German Air Force (GAF) Tornado aircraft at Holloman AFB. The proposed action would relocate 30 Tornado aircraft, equipment, and approximately 500 support personnel to Holloman. The proposed action would also include the construction of a new tactical target range within the existing impact area of the McCreagor Army Range, New Mexico, construction of additional support facilities at Holloman AFB, increased use of Military Training Routes (MTRs) and Military Operations Areas (MOAs). The United States Army and the Bureau of Land Management will be cooperating agencies in this EIS.

No live ordnance would be used on the proposed new range. The proposed range would provide an air-to-ground weapons delivery site for air crews training in low level navigation, terrain following radar operations, and low level combat tactics. Aircraft would access the proposed range using existing MTRs. Alternatives under consideration include (1) Beddown of Tornado aircraft at Holloman but no air-to-ground range and (2) The No Action alternative.

The Air Force will conduct a series of scoping meetings to solicit public input concerning the proposed action and alternatives. Notice of the date, time and location of the meeting will be made available to public officials, the community, and the news media at a later date. For those unable to attend any of the scheduled scoping meetings, written comments will be accepted by the Air Force at the address below through July 1, 1996. The Air Force will accept appropriate comments at any time during the environmental analysis process.

Please direct any written comments or requests for further information to: Ms. Sheryl Parker, HQ ACC/CEVA, Langley AFB, VA 23665-2769, (804) 764-3328.
