

minimis parties' contribution of hazardous substances that were removed from the Site. Due to exceptional circumstances, liability of parties and future costs were readily and fairly identifiable.

Boise Cascade Corporation has offered no new information in its comments to cause EPA to alter its decision to enter into the proposed *de minimis* settlements.

Dated: April 29, 1996.

William Rice,

Regional Administrator.

[OPPTS-44625; FRL-5365-4]

TSCA Chemical Testing; Receipt of Test Data

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's receipt of data from a test designed to determine the presence of polychlorinated dibenzo-p-dioxins and polychlorinated dibenzofurans in chloranil (CAS No. 118-75-2). These data were submitted pursuant to a final test rule issued by EPA under section 4 of the Toxic Substances Control Act (TSCA). Publication of this notice is in compliance with section 4(d) of TSCA.

FOR FURTHER INFORMATION CONTACT:

Susan B. Hazen, Director,

Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-543B, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD (202) 554-0551; e-mail: TSCA-Hotline@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Section 4(d) of TSCA requires EPA to publish a notice in the Federal Register reporting the receipt of test data submitted pursuant to test rules promulgated under section 4(a) within 15 days after these data are received by EPA.

I. Test Data Submissions

Test data were submitted by Chugai Boyeki (America) Corporation for their chloranil pursuant to a TSCA section 4 test rule at 40 CFR Part 766 and were received by EPA on March 26, 1996. The submission includes a final report entitled "Analysis of Polychlorinated Dibenzo-p-Dioxins and Polychlorinated Dibenzofurans in Chloranil." The testing was conducted to determine the presence of polychlorinated dibenzo-p-dioxins and dibenzofurans in chloranil, a chemical used in the production of

pigments and dyes, and as a binding agent in the production of tires. EPA promulgated this test rule because of concern that certain organic chemicals may be contaminated by polyhalogenated dibenzo-p-dioxins and/or polyhalogenated dibenzofurans and may present an unreasonable risk of injury to human health or the environment.

EPA has initiated its review and evaluation process for this data submission. At this time, the Agency is unable to provide any determination as to the completeness of the submission.

II. Public Record

EPA has established a public record for this TSCA section 4(d) receipt of data notice (docket number OPPTS-44625). This record includes a copy of the study reported in this notice. The record is available for inspection from 12 noon to 4 p.m., Monday through Friday, except legal holidays, in the TSCA Public Docket Office, Rm. B-607 Northeast Mall, 401 M St., SW., Washington, DC 20460.

Authority: 15 U.S.C. 2603.

BILLING CODE 6560-50

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by FCC For Extension Under Delegated Authority 5 CFR Part 1320 authority, comments requested

May 1, 1996.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number.

Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. The FCC is reviewing the following information collection requirements for possible 3-year extension under delegated authority 5 CFR 1320, authority delegated to the Commission by the Office of Management and Budget (OMB).

DATES: Written comments should be submitted on or before July 8, 1996. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESS: Direct all comments to Dorothy Conway, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to dconway@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0576.

Title: Application for Renewal of Amateur Radio Station License.

Form No.: FCC 610R.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals.

Number of Respondents: 2,000.

Estimated Time Per Response: 5 minutes.

Total Annual Burden: 168 hours.

Needs and Uses: Amateur Radio Service licensees are required to apply for renewal of their radio station license every ten years. In lieu of filing a "long" form (FCC 610), the Commission allows this "short" form renewal to be filed. This form is computer generated and sent to licensees near the end of their ten year license term. They can renew simply by signing and returning the application as opposed to answering several questions on the "long" form. Commission personnel will use this data to determine eligibility for radio station renewal authorization and to issue a license. Data is also used by
