New York Power Authority; Notice of Availability of Environmental Assessment

May 8, 1996.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory

Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47910), the Office of Hydropower Licensing (OHL) has reviewed the application for approval of change in land rights and removal of lands from the project boundary. New York Power Authority proposes to convey five land parcels totaling approximately 670 acres to the Town of Waddington, New York, for low-density residential and tourism-related commercial and recreational development.

The staff of OHL's Division of Project Compliance and Administration has prepared an Environmental Assessment (EA) for the proposed action. In the EA, staff concludes that the licensee's proposal would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Reference and Information Center, Room 2A, of the Commission's Offices at 888 First Street, NE, Washington, D.C., 20426.
