¹ This section describes requirements for the first applicable year. For seven States, FY 1995 is the first applicable year. States are required to provide a copy of the statute enacting the law and are asked to provide a description of the previous year's activities, if they so desire. For the second and subsequent fiscal years, States are to provide a copy of any amendments. No burden is associated with these requests.

² This is the burden associated with completing the annual report reflecting use of a probability sample of outlets. For seven States, FY 1997 is the second applicable year; therefore, they are not required to report on a probability sample inspection basis.

³ This section duplicates the information collection language in section 96.130(e). The burden is shown for 96.130(e).

⁴ This is the burden associated with completing the State Plan narrative.

⁵ This section describes the submission of the interim performance target beginning with the fourth applicable year.

⁶ This section describes evidence of progress toward achieving or surpassing a performance objective in the interim performance target objective.
