DATES: Comments on this notice must be received by July 22, 1996 to be assured of consideration.

ADDITIONAL INFORMATION OR COMMENTS:

Contact Rich Allen, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, 14th and Independence Avenue, SW, Washington, D.C. 20250-2000, (202) 720-4333.

SUPPLEMENTARY INFORMATION:

Title: Fruit, Vegetable and Specialty Crop Marketing Order Handlers Survey.

Type of Request: Intent to seek approval to conduct an information collection.

Abstract: To improve its compliance under the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has contracted with the National Agricultural Statistics Service to conduct a Fruit, Vegetable and Specialty Crop Marketing Order Handlers Survey. Marketing Agreements and orders are authorized under the Agriculture Marketing Agreement Act of 1937 (AMAA) (7 U.S.C. 601 et seq.). The AMAA permits regulation of certain agricultural commodities for the purpose of providing orderly marketing conditions in interstate commerce and improving returns to producers. AMS is charged with the oversight responsibilities for these programs.

Marketing agreement and order programs have a unique characteristic in government regulatory programs; they are the result of the joint effort of government and industry representatives to improve the

marketing of agricultural commodities. An administrative committee, comprised of growers and handlers appointed by the Secretary of Agriculture, locally administers each order. A major function of these administrative committees is to recommend to the Secretary administrative rules and order amendments. AMS reviews administrative committee recommendations for regulatory action and accompanying justifications for consistency with the regulatory authorities provided in the marketing order, as well as Department policy and the potential impact on small businesses. Issuance of marketing order regulations follows procedures prescribed by the Administrative Procedure Act. In addition, the AMS must adhere to a number of other statutes in issuing rulemaking, including the RFA.

The purpose of the RFA is to fit regulatory and informational requirements to the size and scale of business entities in a manner that is consistent with the objectives of the rule and applicable statutes. The RFA requires agencies to identify regulatory situations in which there is (or will be) a significant economic impact, as measured by costs and other factors, on a substantial number of small entities. The survey results will provide information on handler costs, revenues, and other related factors which will allow AMS to evaluate impacts of proposed rulemaking recommendations on handlers who may be classified as small entities under the RFA.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 30 minutes per response.

Respondents: Handlers (e.g., shippers and others as defined under the respective programs) regulated under marketing orders.

Estimated Number of Respondents: 1,650.

Estimated Total Annual Burden on Respondents: 825 hours.

Copies of this information collection and related instructions can be obtained without charge from Larry Gambrell, the Agency OMB Clearance Officer, at (202) 720-5778.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to: Larry Gambrell, Agency OMB Clearance Officer, U.S. Department of Agriculture, 14th and Independence Ave., SW, Room 4162 South Building, Washington, DC 20250-2000. All response to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed at Washington, DC, May 8, 1996.

Donald M. Bay,

Administrator, National Agricultural Statistics Service.
