

include retail trade, wholesale trade, business services, transportation and other service related industries are the primary areas of the economy where the Census Bureau plans to collect the new NAICS information.

The classification information collected from businesses will be used to update the Census Bureau's mailing lists to ensure respondents will receive the correct 1997 Economic Census form. The collection of this new NAICS information will greatly reduce processing costs and ease reporting burden for the 1997 Economic Censuses data collection. The Census Bureau is not requesting any economic data in this collection.

II. Method of Collection

The Census Bureau will select establishments to receive this survey from the Census Bureau's Standard Statistical Establishment List. The Census Bureau's mail list will include single business establishments and companies with multiple establishments. To be eligible for selection, an establishment must satisfy the following conditions: (1) the current SIC is affected by the NAICS implementation or the current SIC is only coded to the 2 or 3 digit level; and (2) the establishment is above the mail cutoffs planned for the 1997 Economic Census.
