

Charges" that sought public comment on changes to several sections of Title 14, Code of Federal Regulations, Part 158 that deal with the collection, handling, and remittance of PFC's. The notice specified the quantity and quality of airline cost data necessary for the FAA to determine an adequate rate of airline compensation. In addition, the notice included several proposed modifications to part 158 that would allow air carriers to be compensated based on PFC's collected; would implement the statutory prohibition (FAA Authorization Act of 1994) on collection of PFC's from passengers traveling on frequent flyer awards; and clarified various terms. Finally, the notice requested comments on several proposals dealing with ways to safeguard PFC revenue in the event of carrier bankruptcy.

By a request dated April 23, 1996, ATA asked that the comment period be extended 90 days to allow interested parties to respond adequately to the complex issues in the notice. ATA states that in light of the demands that the cost data guidance will place upon responding carriers and the carrier response rate that the FAA has established, an extension is needed to permit the submission of the information in the detail and to the extent that the FAA wishes.

The FAA has determined that an extension of the comment period will allow ATA and its members additional time for a more thorough review of applicable issues and questions raised by the ANPRM, and the drafting of responsive comments.

In order, therefore, to give all interested persons additional time to complete their comments, the FAA finds that it is in the public interest to extend the comment period.

Accordingly, the comment period will close on August 16, 1996.

Issued in Washington, DC, on May 16, 1996.

Paul L. Galis,

Director, Office of Airport Planning and Programming.

Food Labeling: Nutrient Content Claims, Definition of Term: Healthy

AGENCY: Food and Drug Administration, HHS.

ACTION: Proposed rule; correction.

The Food and Drug Administration (FDA) is correcting a proposed rule that appeared in the Federal Register of February 12, 1996 (61 FR 5349). The document proposed to amend the food labeling regulations to permit certain processed fruits and vegetables and enriched cereal-grain products that conform to a standard of identity to bear the term "healthy." The document was published with an inadvertent error. This document corrects that error.

DATES: Written comments by July 18, 1996. FDA proposes that any final rule that may issue based on this proposal become effective on the date of publication in the Federal Register.

ADDRESSES: Submit written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, 12420 Parklawn Dr., rm. 1-23, Rockville, MD 20857.

In FR Doc. 96-2980, appearing on page 5349 in the Federal Register of Monday, February 12, 1996, the discussion that appears on page 5354 in the first column under the heading "V. Environmental Impact" is corrected by removing the paragraph that appears there in its entirety and adding in its place "The agency has determined under 21 CFR 25.24(a)(11) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required."

Dated: May 15, 1996.

SUPPLEMENTARY INFORMATION:

I. Background

On June 27, 1994, in response to the Vice President's National Performance Review, the Secretary chartered the Federal Gas Valuation Negotiated Rulemaking Committee (Committee) for the purpose of improving the regulations that govern the valuation, for royalty purposes, of gas produced from Federal leases. The Committee was comprised of representatives from large oil and gas companies, independents,
