SUPPLEMENTARY INFORMATION: Section 1217 of Title XII of the Food, Agriculture, Conservation and Trade Act of 1990 (104 Stat. 3526) and the Federal Agricultural Improvement and Reform Act of 1996 authorize the Secretary of Agriculture to provide a Federal grant to a designated State agency for carrying out the Forest Legacy Program. The purpose of the Federal grant is to provide Optional State Grants to States for the acquisition of environmentally important private lands and interests in the lands with title to the land vested in the State. Under section 7(a) of the Cooperative Forestry Assistance Act (16 U.S.C. 2103c(c)), the Secretary of Agriculture continues to have authority to acquire from willing landowners, environmentally important forest lands and interests therein for Federal acquisition.

The revised Forest Legacy Program guidelines are divided into three parts:

Part 1—General Program Guidelines: Program direction applicable to all aspects of the Forest Legacy Program.

Part 2—Federal Acquisition Program Guidelines: Program direction applicable to States and Forest Service units selecting the Federal acquisition and ownership process, where ownership of lands or interests in lands is vested in the United States.

Part 3—State Grant Program Guidelines: Program direction applicable to States and Forest Service units where the State has elected the State grant option and acquisitions result in State ownership.

The guidelines are for the use of agencies, State Forest Stewardship Coordinating Committees, and the Forest Service in implementing the Forest Legacy Program nationwide.

The revised implementation guidelines are available for review and comment by the Governors through State forestry agencies and to land trusts, conservation organizations, forest industry groups, landowners, and other organizations interested in the Forest Legacy Program. Those entities currently on the Forest Legacy Program mailing list maintained by the Forest Service will receive direct notice of the revised guidelines.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau is authorized to conduct surveys necessary to furnish current data on subjects covered by the major census authorized by Title 13, United States Code. The data from the ACS will determine the feasibility of a continuous measurement system that provides socioeconomic data on a continual basis throughout the decade for small areas and small subpopulations.

The American Community Survey, implemented in November 1995, is a continuing full-scale operation of a continuous measurement system in four survey sites—Fulton County, Pennsylvania; Rockland County, New York; Brevard County, Florida; and Multnomah County, Oregon, including the city of Portland. The survey also includes a national sample to test response rates and our ability to obtain telephone numbers for nonresponse households. The data collected in this survey will be within the general scope and nature of those inquiries covered in the decennial census every ten years.

We plan to continue sampling and enumeration in the American
