[Project No. 11077-001]

Alaska Power and Telephone Company; Notice of Availability of Final Environmental Assessment

May 22, 1996.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for an original license for the Goat lake Hydroelectric Project, located on Pitchfork Falls, about 7 miles from the town of Skagway, in southeast Alaska.

The Federal Energy Regulatory Commission and the U.S. Forest Service have prepared a Final Environmental

Assessment (FEA) for the project which analyzes existing and potential future environmental effects of the project. Our conclusion is that license issuance for the project, with appropriate environmental protective or enhancement measures, would not be a major federal action significantly affecting the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Branch, Room 2A, of the Commission's offices at 888 First Street, N.E. Washington, D.C. 20426.

Secretary.
