FOR FURTHER INFORMATION CONTACT: Phyllis H. Cook, Service Information Collection Clearance Officer, 703/358-1943.

SUPPLEMENTARY INFORMATION:

Title: Wild Exotic Bird Import Application.

OMB Approval Number: 1018-0084.

Abstract: The Wild Bird Conservation Act of 1992 (WBCA) authorizes the Service to issue permits for the importation of individual exotic birds from otherwise prohibited species for the following purposes (after a finding that such imports are not detrimental to the species' survival): scientific research; personally owned pets of individuals returning to the United States after being out of the country for a least one year; zoological breeding or display programs; and cooperative breeding programs designed to promote the conservation of the species in the wild, that are developed and administered by organizations meeting certain standards. The information required on the application is used by the Service to determine if an applicant should be granted a permit to import an exotic bird under the provisions of the WBCA. This proposed amendment will change this requirement by providing for applications that will be submitted by foreign governments and foreign breeding facilities, in accordance with recently enacted regulations to implement the WBCA. This proposed amendment does not affect existing information collection requirements for scientific research, personal pets, zoological breeding or display, or cooperative breeding, in any way.

Service Form Number(s): 3-200.

Frequency: On occasion.

Description of respondents:

Individuals and households; businesses or other for profit organizations; non-profit institutions and small businesses or organizations, foreign governments.

Completion Time: The reporting burden is estimated to average 4 hours per respondent for all permits except those for personally owned pets. For permits for personally owned pets, it is

estimated that completion time will average 1 hour per application. Applications for species approval from foreign governments and foreign breeding facilities will require an average of 8 hours to complete. The average completion time for all applicants is estimated at 3.42 hours per response.

Annual Responses: Service experience indicates that approximately 600 applicants will apply each year for permits other than for personally owned pets. Approximately 200 applicants will apply for permits for personally owned pets. The Service anticipates that 10 or less foreign governments and approximately 20 foreign breeding facilities will apply. Total annual responses will be 830.

Annual Burden Hours: Total annual burden hours will be 2,480.
