SUPPLEMENTARY INFORMATION:

Title: General Administrative Requirements for Assistance Program (OMB Control No. 2030-0020; EPA ICR No. 0938.06. This is a request for a revision of a currently approved collection.

Abstract: The information is collected from applicants/recipients of EPA assistance and is used to make awards, pay recipients and collect information on how Federal funds are being spent. EPA needs the information to meet its Federal stewardship responsibilities. Recipient responses are required to obtain a benefit (Federal funds) under 40 CFR Part 30, "Grants and Agreements with Institutions of High Education, Hospitals and Other Non-profit Organizations" and 40 CFR Part 31, "Uniform Administrative Requirements for Grants and Cooperative to State and Local Governments." An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers of EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 03/22/96 (Vol. 61 No. 57 pg. 11834).

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 32 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate maintain retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements, train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transit or otherwise disclose the information:

Respondents/Affected Entities: Not-for-profit institutions.

Estimated Number of Respondents: 3,743.

Frequency of Response: as required.

Estimated Total Annual Hour Burden: 119,776 hours.

Estimated Total Annualized Cost Burden: \$4,030,848,00.

Send comments on the agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods of minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0938.06 and OMB Control No. 2030-0020 in any correspondence.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Selective Enforcement Auditing Reporting and Recordkeeping Requirements for On-Highway Heavy-Duty Engines, Nonroad Large Compression Ignition Engines, and On-Highway Light-Duty Vehicles and Light-Duty Trucks

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Application for Selective Enforcement Auditing Reporting and Recordkeeping Requirements for On-Highway Heavy-Duty Engines, Nonroad Large Compression Ignition Engines, and On-Highway Light-Duty Vehicles and Light-Duty Trucks (OMB Control No. 2060-0064, approved through 6/30/96). The ICR describes the nature of the information collection and its expected

burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 1, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 0011.08.

SUPPLEMENTARY INFORMATION:

Title: Selective Enforcement Auditing Reporting and Recordkeeping Requirements for On-Highway Heavy-Duty Engines, Nonroad Large Compression Ignition Engines, and On-Highway Light-Duty Vehicles and Light-Duty Trucks (OMB Control No. 2060-0064; EPA ICR No. 0011.08) expiring 6/30/96. This ICR request is an extension of a currently approved collection activity.

Abstract: The On-Highway Light-Duty Vehicle (LDV), Light-Duty Truck (LDT), and Heavy-Duty Engine (HDE) Selective Enforcement Auditing (SEA) Programs as well as the Nonroad Large Compression-ignition Engine (CIE) SEA Program use this information collection to enforce compliance with applicable exhaust emission standards. Under section 206(d) of the Clean Air Act (Act), the U.S. Environmental Protection Agency (EPA) is authorized to conduct emission testing of new, on-highway LDV, LDT, and HDE production through SEAs (or Audits). Section 213(d) of the Act as amended (Act) authorizes the Nonroad SEA Program. The Nonroad CIE SEA Program was designed to parallel the on-highway SEA Programs, reference 40 CFR Part 86 Subpart K, and its information collection requirements.

The on-highway LDV and LDT SEA programs are conducted by the Vehicle Programs and Compliance Division (VPCD), Office of Mobile Sources (OMS), Office of Air and Radiation (OAR). The on-highway HDE and nonroad CIE programs are conducted by the Engine Programs and Compliance Division (EPCD), OMS, OAR.

This information collection requires manufacturers of on-highway LDVs, LDTs, and HDEs, and nonroad CIEs to submit to EPA periodic reports and information from SEAs. VPCD and EPCD collect this information and evaluate it to determine if the applicable production vehicles and engines comply with the Act. The information collected specifically includes "Pre-audit" planning information and "Audit" information. Pre-audit information includes projected annual sales data, production volumes at assembly plants, and voluntary assembly line test data (ALT data) submittals. Audit information includes detailed

production information, records for test equipment, test data, and reports.

The results of SEAs are used by the Office of Mobile Sources to verify compliance of production vehicles and engines with applicable emission standards. The data and test facility information from SEAs may be used by OMS's Certification Programs to help evaluate a manufacturer's future model year Applications for Certification, and LDV and LDT SEA data will also be used by the VPCD's In-use Testing Program to help target potential future in-use nonconformities.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register notice required

under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 2/12/9; no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average between 260 and 8,988 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The estimated annual cost resulting from this information collection is \$453,782, \$1,646,612, and \$82,440 for the HDE, CIE, and LDV/LDT programs, respectively. The estimated annual cost to the CIE industry segment includes start-up costs and "learning curve" costs. The start-up and learning-factor costs apply to the first three years of the nonroad CIE SEA program (which is the duration of this information collection request) and are divided among the 28 CIE manufacturers.

Respondents/Affected Entities: On-highway LDV, LDT, and HDE as well as nonroad Large CIE manufacturers.
