

both commercial and savings banks. The survey data provide a basis for measuring the competitive impact of bank mergers and has additional use in banking research. The data are collected as of close of business, June 30.

The proposed revisions to the SOD are described as follows: Financial institutions previously were required to report three (3) separate categories for deposits at each branch: (1) "Individual, partnership and corporation", (2) "other", and (3) "total". Now only one figure (total deposits) is required. This will lessen the reporting burden significantly. Reporters were always required to provide information on changes in address, relocations, new and purchased branches, and branches closed or sold. They were instructed to write the information on the form including type of facility and effective date of transaction. Reporting of changes has now been formalized by adding columns to report the effective date, type of transaction and type of facility. In addition to formalizing the reporting of changes, the new format will facilitate the automated interface of these changes to the Corporation's Structure database rather than doing them manually. The new SOD survey form will also facilitate electronic reporting of the Summary of Deposits survey in the future (1997) as well as be similar to the Thrift SOD survey provided in the Office of Thrift Supervision.

Some of the restrictions apply to all savings to all savings associations, some to state chartered associations only, and some to federally chartered associations only. The statute exempts some federal savings banks and associations from the restrictions, and provides for the FDIC to grant exemptions to other associations under certain circumstances. The applications for exemption constitute this collection of information.

**SUPPLEMENTARY INFORMATION:** The Prompt Corrective Actions provisions of the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA, section 131) require or permit the FDIC and other federal banking agencies to take certain supervisory actions when the FDIC-insured institutions fall within one of five capital categories. They also restrict or prohibit certain activities and require the submission of a capital restoration plan when an insured institution becomes undercapitalized. Various provisions of the statute and the FDIC's implementing regulations require the prior approval of the FDIC before an FDIC-supervised institution can engage in certain activities, or allow the FDIC to make exceptions to restrictions that would otherwise be imposed. This collection consists of the applications that are required to obtain the FDIC's prior approval.
