The petitions were submitted pursuant to section 251 of the Trade Act of 1974 (19 U.S.C. 2341). Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Trade Adjustment Assistance Division, Room 7023, Economic Development Administration, U.S. Department of Commerce, Washington, DC 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

(The Catalog of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.313, Trade Adjustment Assistance.)

Dated: May 28, 1996.

Lewis R. Podolske,
 Director, Trade Adjustment Assistance Division.

National Institute of Standards and Technology

Notice of Government Owned Inventions Available for Licensing

AGENCY: National Institute of Standards and Technology, Commerce.

SUMMARY: The inventions listed below are owned by the U.S. Government, as represented by the Department of Commerce, and are available for licensing in accordance with 35 U.S.C. 207 and 37 CFR Part 404 to achieve expeditious commercialization of

results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT:

Technical and licensing information on these inventions may be obtained by writing to: Marcia Salkeld, National Institute of Standards and Technology, Office of Technology Partnerships, Building 820, Room 213, Gaithersburg, MD 20899; Fax 301-869-2751. Any request for information should include the NIST Docket No. and Title for the relevant invention as indicated below.

SUPPLEMENTARY INFORMATION: The inventions available for licensing are:

NIST Docket No. 95-006

Title: Use of Pre-Ceramic Polymers in Fabrication of Interpenetrating Phase Composites.

Description: Ceramic composites are formed by a low cost, moderate temperature sintering process using a pre-ceramic precursor which, upon heating, decomposes to form "necks" between individual ceramic particles. The properties of the resulting porous ceramic bodies can be further modified to form a new class of composite materials.

NIST Docket No. 95-048D

Title: Methods For Welding Cryogenic Alloys.

Description: To weld metal parts intended for exposure to cryogenic temperatures, an austenitic welding electrode of nickel, chromium, molybdenum, manganese, nitrogen, and iron in specified amounts is used. This alloy and welding method form a weld metal with a superior tearing modulus, fracture toughness, and yield strength at temperatures of about 77 K to as low as 4 K.

Dated: May 29, 1996.
